Accountable Care Organization

I am relieved to read that the GMCB is finally going to require some level of accountability from the bloated bureaucracy foisted upon Vermonters through the One Care ACO. Having spent the past 27 years working for post-acute healthcare providers, it is unfathomable to me that this organization has been able to skirt any accountability, and certainly any lack of transparency around the public dollars they are laundering under the guise of healthcare reform.

The OneCare ACO is a bloated, top-heavy bureaucracy that has produced very little results, and the fact that their CFO couldn't produce or even discuss authentic KPI's of their performance is astounding to me. It needs to stop.
