Green Mountain Care Board

Dear Care Board,

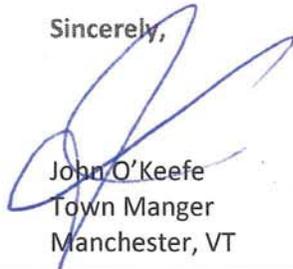

We have met with Tom Sterling and are very excited to learn about his intent to open Manchester Emergency Medical Center.

The lack of local emergency medical care is an issue today and we believe will only become more important as we continue to grow. With three new hotels, the new fields at the recreation park and our initiative to bring more sports tournaments to town, emergency care will become ever more critical.

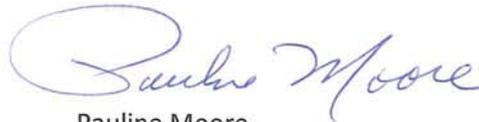

Having a local accessible emergency medical facility in Manchester will positively affect the quality of life in Manchester and the surrounding communities for all our residents and the large number of visitors who come here every year.

We are in support of this initiative and hope you also will support this important initiative.

Sincerely,

John O'Keefe
