

**Green Mountain Care Board**  
**RFP: Cycle II Rate Review Enhancement**  
**Written Questions**  
**March 4, 2015**

1. Is the vendor expected to propose a set of evaluation measures with the rationale behind them, or does the scope also include collecting the data and using it to report on the measures? We are assuming the former because the project budget does not appear to be sufficient to carry out the measurement.

*The Green Mountain Care Board anticipates and expects the selected vendor to propose a set of evaluation measures as well as poses the ability to carry out and collect information on the proposed evaluation measures.*
