

Memo

To: William Hall, Southwestern Vermont Medical Center (SVMC)

From: David Adams

Date: October 4, 2018

Re: SVMC – Emergency Department Modernization

This memo confirms that Efficiency Vermont is working closely with Willy Hall and SVMC on the development and implementation of the Emergency Department modernization project at their Bennington facility.

As part of the project team, Efficiency Vermont has assigned a designated energy consultant, who will provide support services as part of the design process, including:

- Technical assistance & recommendations on energy efficiency opportunities
- Cost/benefit analysis of options
- Collaborate with Architects/Contractors
- Provide “Objective Expertise”
- Financial incentives & assistance

The collaborative goal of these efforts is to achieve the highest levels of efficiency that are appropriate for a project of this nature, and in the process, reduce energy costs, strengthen the economy, and protect our environment.

If you have any questions, don't hesitate to contact me directly.

Thanks,

David C. Adams, BEP

Manager, Account Management
