

Exhibit 1 - Table 2 Debt Financing Arrangement, Sources & Uses of Funds

Applicant Name ACTD LLC
 Project Name Green Mountain Surgery Center

		Initial	Updated	Comments	
Sources of Funds					
1	Financing Instrument			This is the amount of money required to fund the "start-up" year (the year prior to the surgery center becoming operational) activities. It is reduced from the initial estimate primarily because real estate carrying costs (the cost of paying rent for occupying the building before becoming operational) have been moved over to the lease and incorporated into future lease payments. This has caused the lease amount to increase from initial estimates. Given the lower amount of start-up funds required, we managed to finance it all with owner equity from 8 new and 9 existing physician owners, per our notice of nonmaterial changed dated 9/14/2018. The Equity raise concluded in the Fall of 2018.	
a	Interest Rate	7.00%			
b	Loan Period	20 years			
c	Amount Financed	\$680,000	\$0		
2	Equity Contribution	\$1,132,838	\$1,370,000

17	Other (please specify)	\$801,298	\$465,297		
Total Uses of Funds		\$ 1,812,838	\$ 1,370,000		

We reduced the amount of working capital we will need at start-up.
 'Other' costs have reduced significantly primarily because landlord has agreed to assume real estate carrying costs as part of the lease (see note above).
