

Appendix 8- FGI Compliance Letter

LAVALLEE | BRENSINGER ARCHITECTS

December 17, 2019

RE: Southwestern Vermont Health Care Emergency Department adherence to Federal Guidelines Institute

This correspondence is to verify that Lavallee Brensinger is designing the proposed addition to the Emergency Department at Southwestern Vermont Medical Center in accordance with the Guidelines for Design and Construction of Health Care Facilities as issued by the Facilities Guidelines Institute (FGI), 2018 Edition. To call out a few specific items that have been included in the design from the 2018 FGI, we have included provisions for Telemedicine within the Emergency Department, as well as provisions for patients of size within the ED.

Sincerely,

P. Joseph Lonergan

Project Manager
