Re: Request for Expedited Review

Dear Ms. Jerry,

The purpose of this letter is to request expedited review of Valley Vista Bradford's Certificate of Need Application to add to 14 DAILE Therapeutic Community Residence licensed, adult, residential beds in place of its 14 existing DCF licensed adolescent beds. Valley Vista's application is eligible for expedited review under Green Mountain Care Board Rule 4.304, subpart 1a., which allows for expedited review when the application is likely to be uncontested and the proposed project does not substantially alter services. Valley Vista's application is likely to be uncontested and services will not be substantially altered as Valley Vista is simply requesting to increase the capacity for its existing residential substance abuse treatment program.

Please feel free to contact me for more information or with any questions.

Respectfully,

Amanda Hudak, MS, LADC, MAC  
Treatment Director
