

Mount Ascutney Hospital & Health Center

Lori,

We included our answers to the HCA on the presentation but our response is below as well.

MAHHC has decided to not apply for funding from the Health Care Provider Stabilization grant program.

This decision is based on our inability to satisfy two of the requirements as we understand them. Due to effective recovery efforts, effective expense management, and other funding sources, that we will not have much of a need at this point. Additionally, we have planned to reduce our footprint on OneCareVT for 2021.

Thanks, D
