

Rutland's Response.

The State CARES Grant Program does not designate a specific amount that providers apply for, rather, it requests specific information to be submitted about the applicant's financial expenditures and revenues. RRMC did submit a grant application that consisted of over 1,000 pages of documentation. RRMC anticipates that we may be eligible for up to \$2.0M in State CARES Act grant funding and an additional \$1M from FEMA based on the coronavirus expenses we incurred and the remaining financial impact to RRMC after receiving federal relief funds.
