Town: Fairfax

Topic: Hospital Budgets

Comment: I implore you to pass NMC's budget for FY 2021. For years the GMCB has forced unneeded budget cuts and restrictions on our community hospital, and enough is enough. You can not continue to drain the coffers of NMC while simultaneously approving rate increases for UVM. They provide so many services to our community, we can NOT afford to lose them. Responsible oversight is one thing, but standing by while a pillar of the community goes underwater is willful negligence. GMCB must take action to support them now.
