

FINANCIAL STATEMENTS  
and  
SUPPLEMENTARY INFORMATION

September 30, 2021 and 2020  
With Independent Auditor's Report

## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Springfield Hospital, Inc.

We have audited the accompanying financial statements of Springfield Hospital, Inc. (the Hospital), which comprise the balance sheets as of September 30, 2021 and 2020, and the related statements of operations, changes in net assets (deficit), and cash flows for the years then ended, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

### ***Basis for Qualified Opinion***

The Hospital has not performed an assessment of the carrying value of its property and equipment for possible impairment, although certain indicators are present that trigger the requirement to perform such an assessment. Under U.S. generally accepted accounting principles, the carrying value should be reduced to its fair value if such indicators are present and an impairment exists. The effects on the financial statements of any impairment are not reasonably determinable.

**Qualified Opinion**

In our opinion, except for the effect, if any, on the financial statements, of the omission of the assessment described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the Hospital as of September 30, 2021 and 2020, and the results of its operations, changes in its net assets (deficit), and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

**Substantial Doubt about the Hospital's Ability to Continue as a Going Concern**

The accompanying financial statements have been prepared assuming that the Hospital will continue as a going concern. As discussed in Note 10 to the financial statements, the Hospital has incurred significant operating losses and negative cash flows from operations in recent years. As discussed in Note 10, on June 26, 2019, the Hospital filed a petition for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Vermont, and subsequently exited Chapter 11 of the United States Bankruptcy Code effective December 31, 2020 based on its plan of reorganization approved by the Bankruptcy Court. Continuation of the Hospital as a going concern is contingent upon, among other things, the Hospital's ability to generate sufficient cash from operations to meet its future obligations. These factors raise substantial doubt about the Organization's ability to continue as a going concern. Note 10 includes management's main initiatives for financial sustainability subsequent to exiting bankruptcy. Our opinion is not modified with respect to this matter.

**Other Matters**

*Supplementary Information*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary schedule of expenses is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, except for the effect, if any, of the omission of the assessment described in the Basis for Qualified Opinion paragraph, the information is fairly stated in all material respects in relation to the financial statements as a whole.

*Change in Accounting Principles*

As discussed in Note 1 to the financial statements, in 2021 the Hospital adopted Financial Accounting Standards Board Accounting Standards Update No. 2014-09, *Revenues from Contracts with Customers* (Topic 606), and related guidance. Our opinion is not modified with respect to this matter.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### Organization

Springfield Hospital, Inc. (the Hospital) is a not-for-profit Critical Access Hospital which provides inpatient, outpatient, emergency care, inpatient mental health, and specialty care services to the residents of Springfield, Vermont and the surrounding communities.

### 1. Summary of Significant Accounting Policies

#### Basis of Presentation

Net assets (deficit) and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic (ASC) 958, *Not-for-Profit Entities*, as described below. Under FASB ASC 958 and FASB ASC 954, *Health Care Entities*, all not-for-profit healthcare organizations are required to provide a balance sheet, a statement of operations, a statement of changes in net assets (deficit), and a statement of cash flows. FASB ASC 954 requires reporting amounts for an organization's total assets, liabilities, and net assets (deficit) in a balance sheet; reporting the change in an organization's net assets (deficit) in statements of operations and changes in net (deficit) assets; and reporting the change in its cash and cash equivalents in a statement of cash flows, according to the following net asset classifications:

**Net assets without donor restrictions:** Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Hospital. These net assets may be used at the discretion of the Hospital's management and the Board of Directors (Board).

**Net assets with donor restrictions:** Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Hospital or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

#### Newly Adopted Accounting Pronouncements

In 2021, the Hospital adopted FASB Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), and related guidance, which supersedes accounting standards that previously existed under U.S. generally accepted accounting principles (GAAP) and provides a single revenue model to address revenue recognition to be applied by all companies. Under the new standard, companies recognize revenue when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. Topic 606 also requires companies to disclose additional information, including the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Hospital adopted this ASU for the year ended September 30, 2021 and elected the modified retrospective method; therefore, the financial statements and related notes have been presented accordingly. See Note 3 for adoption impact.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Cash and Cash Equivalents**

Cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less.

### **Net Patient Service Revenue and Patient Accounts Receivable**

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to patient accounts receivable.

### **Other Receivables**

Other receivables are stated at the amount management expects to collect from outstanding balances.

### **Assets Limited as to Use**

Assets limited as to use primarily consist of designated assets set aside by the Board for future capital improvements and operations, over which the Board retains control and which it may, at its discretion, subsequently use for other purposes. Assets limited as to use are comprised of cash and short-term investments.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### **Property and Equipment**

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter of the lease term or the asset's estimated useful life.

Gifts of long-lived assets such as land, buildings, or equipment are reported as support without donor restrictions and excluded from the excess (deficiency) of revenues, gains and other support over expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

### **Excess (Deficiency) of Revenues, Gains and Other Support Over Expenses and Losses**

The statements of operations include excess (deficiency) of revenues, gains and other support over expenses and losses. Changes in net assets without donor restrictions which are excluded from this measure, consistent with industry practice, include net assets released from restrictions for capital acquisition and changes in net assets to recognize the funded status of the pension plan.

### **Provider Relief Funds**

The Coronavirus Aid, Relief, and Economic Security (CARES) Act provides funds to eligible healthcare providers to prevent, prepare for and respond to COVID-19. The CARES Act provides the U.S. Department of Health and Human Services (HHS) with discretion to operate the program and determine the reporting requirements. The funds have been appropriated to reimburse healthcare providers for COVID related expenses or lost revenues that are attributable to COVID-19. During 2020, the Hospital received \$5,444,565 of HHS Provider Relief Funds (Funds) and attested to the receipt of the Funds and agreement with the associated terms and conditions. The Hospital has chosen to follow the conditional contribution model for the Funds and recognized the full amount as grant revenue in 2020. Management determined the conditions on which the Funds depend were substantially met. Management believes the position taken is a reasonable interpretation of the rules currently available. Due to the complexity of the reporting requirements and the continued issuance of clarifying guidance, it is possible the amount of income recognized related to the lost revenues and COVID-related costs may change by a material amount. Any difference between amounts previously estimated and amounts subsequently determined to be recoverable or payable will be included in income in the year that such amounts become known.

# **SPRINGFIELD HOSPITAL, INC.**

## **Notes to Financial Statements**

**September 30, 2021 and 2020**

In November and December 2021, HHS released additional Funds and American Rescue Plan Rural Payments to providers who serve rural Medicaid and Medicare beneficiaries. The Hospital received approximately \$2,897,000.

### **Donor-Restricted Gifts**

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received and the conditions are met. The gifts are reported as support with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statements of operations as net assets released from restrictions.

### **Reorganization Items**

Reorganization items are comprised of gains and costs directly associated with Chapter 11 reorganization. These include professional expenses and trustee fees. In 2021, it also includes the gain on bankruptcy reorganization. See Note 11.

### **Employee Retirement Plans**

The Hospital has a noncontributory defined benefit pension plan covering all eligible employees. The plan provides benefits that are based on the employee's compensation during the five highest years preceding retirement. The Hospital's funding policy is to make an annual contribution per actuarial calculation. On December 1, 2005, the Board elected to freeze the defined benefit pension plan and to establish a defined contribution retirement plan for all eligible employees.

The Hospital has a 401(k) retirement plan covering substantially all of its employees. The plan provides for immediate vesting of employee contributions and full vesting of employer contributions over a five-year period of service.

### **Taxes**

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes on related income.

The Hospital pays a healthcare provider tax of 6% on net patient service revenue to the State of Vermont. For the years ended September 30, 2021 and 2020, the Hospital incurred \$2,788,490 and \$3,508,015, respectively, in healthcare provider tax, which is reported in supplies and other expenses in the statements of operations.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

**Functional Expenses**

The statements of operations report certain expense categories that are attributable to both healthcare services and support functions. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. The expenses that are allocated include employee benefits, which are allocated based on salaries, and occupancy, depreciation and amortization, and interest costs, which are allocated by square footage. Expenses related to providing these services were as follows for the years ended September 30:

<b><u>2021</u></b>	<b><u>Healthcare Services</u></b>	<b><u>Support Services</u></b>	<b><u>Total</u></b>
Salaries, payroll taxes and employee benefits	\$ 17,556,706	\$ 4,222,043	\$ 21,778,749

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, management has considered transactions or events occurring through April 6, 2022, the date that the financial statements were available to be issued.

On January 3, 2022, the National Labor Relations Board certified the election results of the vote by the Hospital's nursing staff to unionize.

### 2. Availability and Liquidity of Financial Assets

The Hospital had working capital of \$6,807,501 and \$897,685 at September 30, 2021 and 2020, respectively. The 2020 amount excludes liabilities subject to compromise. The Hospital had average days (based on normal expenditures) cash on hand of 43 and 46 at September 30, 2021 and 2020, respectively. Note 10 contains additional information regarding the Hospital's cash flow challenges and management's plans to address them.

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs not financed with debt, were as follows as of September 30:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents, less donor-restricted amounts	\$ 5,079,320	\$ 5,357,443
Patient accounts receivable, net	7,994,852	7,216,634
Estimated third-party payor settlements	976,212	-
Other receivables	<u>2,062,329</u>	<u>808,607</u>
Financial assets available to meet general expenditures within one year	<u>\$ 16,112,713</u>	<u>\$ 13,382,684</u>

### 3. Net Patient Service Revenue and Patient Accounts Receivable

Net patient service revenue and patient accounts receivable are reported at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Hospital bills the patients and third-party payors several days after the services are performed or the patient is discharged from the hospital. Revenue is recognized as performance obligations are satisfied.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

As disclosed in Note 1 to these financial statements, the Hospital adopted Topic 606 and related guidance for the year ended September 30, 2021, electing to use the modified retrospective method. Accordingly, amounts in the comparative period have not been restated and continue to be reported under the accounting standards in effect for that year. The effect of adopting Topic 606 changed the timing of when the Hospital recognizes uncollectible patient accounts receivable upon the recognition of patient service revenue and effectively eliminated the recognition of a provision for bad debts as collectibility considerations are factored into the estimated transaction price. The impact on the Hospital's financial statement line items of adopting Topic 606 was as follows:

	<b>Balances Without the Adoption of Topic 606</b>	<b>Adjustments Due to Topic 606</b>	<b>As Reported, 2021</b>
<b>Balance Sheet</b>			
Patient accounts receivable, net	\$ 10,069,322	\$ (2,074,470)	\$ 7,994,852
Net assets without donor restrictions	\$ 6,740,273	\$ (2,074,470)	\$ 4,665,803
<b>Statement of Operations and Changes in Net Assets</b>			
Net patient service revenue	\$ 42,628,506	\$ (300,470)	\$ 42,328,036
Excess of revenues, gains and other support over expenses and losses	\$ 18,818,396	\$ (300,470)	\$ 18,517,926
	<b>October 1, 2020</b>	<b>September 30, 2021</b>	
Patient accounts receivable, net	\$ 5,442,634	\$ 7,994,852	
Net assets without donor restrictions	\$ (15,201,178)	\$ 4,665,803	

As allowed under FASB ASC 606-10-32-18, the Hospital has elected the practical expedient and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Hospital's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payor pays for that service will be one year or less. However, the Hospital does in certain instances enter into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in hospitals receiving inpatient acute care services or patients receiving services in outpatient centers. The Hospital measures the performance obligation from admission into the Hospital or the commencement of an outpatient service to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Revenue from performance obligations satisfied at a point in time is generally recognized when the goods are provided to patients and customers in a retail setting (for example, cafeteria) and the Hospital does not believe it is required to provide additional goods or services related to that sale.

## SPRINGFIELD HOSPITAL, INC.

### Notes to Financial Statements

September 30, 2021 and 2020

Because all of its performance obligations relate to contracts with a duration of less than one year, the Hospital has elected to apply the optional exemption provided in FASB ASC 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Hospital determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Hospital's policy, and implicit price concessions provided to uninsured patients. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with this class of patients and records these as a direct reduction to net patient service revenue.

Each performance obligation is separately identifiable from other promises in the customer contract. As the performance obligations are met (i.e., room, board, ancillary services, level of care), revenue is recognized based upon the allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative standalone selling price. In instances where management determines there are multiple performance obligations across multiple months, the transaction price is allocated by applying an estimated implicit and explicit rate to gross charges based on the separate performance obligations.

In assessing collectibility, the Hospital has elected the portfolio approach. This portfolio approach is being used as the Hospital has a large volume of similar contracts with similar classes of customers. The Hospital reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, aggregating all of the contracts (which are at the patient level) by the particular payor or group of payors, will result in the recognition of the same amount of revenue as applying the analysis at the individual patient level.

#### **Estimated Third-Party Payor Settlements**

The Hospital has agreements with third-party reimbursing agencies that provide for payments at amounts different from its established rates. A summary of the payment arrangements with major third-party reimbursing entities follows:

##### *Medicare*

As a Critical Access Hospital, the Hospital is reimbursed 101% of reasonable allowable costs for its inpatient and outpatient services provided to Medicare patients. Psychiatric services related to Medicare beneficiaries are paid based on a prospective payment methodology. The Hospital is reimbursed for cost reimbursable items at tentative rates, with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital's Medicare cost reports have been audited by the Medicare fiscal intermediary through September 30, 2018.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### *Medicaid*

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed at prospectively determined rates. The prospectively determined rates are not subject to retroactive adjustment.

The Hospital currently participates in the statewide accountable care organization (ACO), OneCare Vermont, LLC, for Medicaid and records monthly fixed prospective payments for services provided to attributed members. The ACO is responsible for both the cost and quality of care for each attributed member. This is true whether that person uses little or no care or whether they require services consistently throughout the year. The Hospital recognizes its share of annual contract settlements as an increase or decrease in fixed prospective revenue.

### *Blue Cross*

Inpatient and outpatient services rendered to Blue Cross subscribers are reimbursed at submitted charges less a negotiated discount. The amounts paid to the Hospital are not subject to any retroactive adjustments.

### *Other*

The Hospital has entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the Hospital is primarily discounts from established charges, prospectively determined daily rates, and fee schedules.

The Hospital has agreements with the Centers for Medicare & Medicaid Services (CMS) and the Department of Vermont Health Access (Medicaid). Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known. In 2021, net patient service revenue increased approximately \$1,906,000, due to changes in allowances or recognition of settlements no longer subject to audits, reviews, and investigations. There was no such impact to net patient service revenue in 2020.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

Patient service revenue and contractual and other allowances consisted of the following for the years ended September 30:

	<u>2021</u>	<u>2020</u>
Gross patient service revenue	\$ <b>101,348,810</b>	\$ 93,130,531
Less contractual allowances	<b>58,192,600</b>	53,701,142
Less charity care and other discounts	<u>828,174</u>	<u>1,602,054</u>
	<u><b>59,020,774</b></u>	<u>55,303,196</u>
Patient service revenue (net of contractual allowances and discounts)	<b>42,328,036</b>	37,827,335
Less provision for bad debts	<u>-</u>	<u>4,117,891</u>
Net patient service revenue	<u><b>\$ 42,328,036</b></u>	<u>\$ 33,709,444</u>

Net patient service revenue recognized for the years ended September 30, 2021 and 2020 by payor is as follows:

	<u>2021</u>	<u>2020</u>
Medicare and Medicaid	\$ <b>16,231,002</b>	\$ 13,436,971
Commercial	<b>24,502,285</b>	19,064,605
Self-pay	<u>1,594,749</u>	<u>1,207,868</u>
Total	<u><b>\$ 42,328,036</b></u>	<u>\$ 33,709,444</u>

**Charity Care**

Patients who meet the Hospital's criteria for charity care are provided care without charge or at amounts less than established rates. Such amounts determined to qualify as charity care are not reported as revenue. The Hospital estimates the costs associated with providing charity care by calculating a ratio of total cost to total gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of caring for charity care patients was approximately \$418,000 and \$506,000 for 2021 and 2020, respectively.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

**4. Property and Equipment**

A summary of property and equipment follows:

	<u>2021</u>	<u>2020</u>
Land and land improvements	\$ 2,094,433	\$ 2,083,694
Buildings and improvements	14,899,158	14,291,064
Leasehold improvements	948,319	948,319
Fixed equipment	6,031,912	6,009,558
Major moveable equipment	17,695,705	17,254,974
Construction in progress	<u>124,624</u>	<u>680,436</u>
	<b>41,794,151</b>	<b>41,268,045</b>
Less accumulated depreciation and amortization	<u>31,834,504</u>	<u>30,313,414</u>
Property and equipment, net	<u>\$ 9,959,647</u>	<u>\$ 10,954,631</u>

**5. Long-Term Debt**

Long-term debt consisted of the following as of September 30:

	<u>2021</u>	<u>2020</u>
Term note payable, forgiven in 2021 as a result of the Chapter 11 bankruptcy proceedings.	\$ -	\$ 5,714,419
State of Vermont Note A, due in monthly principal and interest installments of \$10,118, including annual interest of 2%, beginning February 2022 through February 2032 when the remaining principal is due; collateralized by the Hospital's assets.	2,000,000	-
State of Vermont Note B, bearing interest of 2% and payable as a balloon payment in February 2032; collateralized by the Hospital's assets.	3,000,000	-
Unsecured note payable in monthly installments of \$54,037, including interest of 2%, through February 2026.	2,738,925	-
Capital leases payable in equal monthly installments of \$44,214 at fixed rates between 2.85% and 5.27%, maturing through 2024.	<u>691,654</u>	<u>994,393</u>
	<b>8,430,579</b>	<b>6,708,812</b>
Less liabilities subject to compromise (Note 11)	-	5,714,419
Less current portion	<u>1,063,958</u>	<u>463,825</u>
Long-term debt, net of current portion, unamortized debt issuance costs and liabilities subject to compromise	<u>\$ 7,366,621</u>	<u>\$ 530,568</u>

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

The Hospital has entered various equipment lease agreements. Assets, net of accumulated amortization, recorded under capital leases totaled \$716,616 and \$1,155,660 at September 30, 2021 and 2020, respectively. The amortized cost of these assets has been included with property and equipment, net. Amortization expense for assets under capital lease was \$450,263 and \$437,043 for the years ended September 30, 2021 and 2020, respectively, and has been included with depreciation and amortization expense in the accompanying financial statements. Accumulated amortization associated with the lease assets totaled \$1,719,205 and \$1,282,161 at September 30, 2021 and 2020, respectively.

Principal repayments of long-term debt are as follows:

	Term Notes as <u>Scheduled</u>	Capital Lease <u>Obligations</u>
2022	\$ 660,604	\$ 429,721
2023	694,633	274,095
2024	708,653	23,754
2025	722,957	-
2026	357,395	-
Thereafter	<u>4,594,683</u>	<u>-</u>
	<u>\$ 7,738,925</u>	727,570
Less amounts representing interest		<u>35,916</u>
		<u>\$ 691,654</u>

**6. Net Assets**

Net assets with donor restrictions are available for the following purposes at September 30:

	<u>2021</u>	<u>2020</u>
Funds with donor restrictions temporary in nature:		
Purchase of equipment and departmental expenses	\$ 493,389	\$ 445,797
Health education	<u>1,290</u>	<u>2,910</u>
Total funds maintained with donor restrictions temporary in nature	<u>494,679</u>	<u>448,707</u>
Investments to be held in perpetuity, the income from which is expendable to support healthcare services	<u>493,491</u>	<u>493,491</u>
Total funds maintained with donor restrictions held in perpetuity	<u>493,491</u>	<u>493,491</u>
Total net assets with donor restrictions	<u>\$ 988,170</u>	<u>\$ 942,198</u>

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

**7. Concentrations of Credit Risk**

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors was as follows as of September 30:

	<u>2021</u>	<u>2020</u>
Medicare	40 %	27 %
Medicaid	6	5
Commercial	50	40
Self pay	<u>4</u>	<u>28</u>
	<u>100 %</u>	<u>100 %</u>

The Hospital routinely invests its surplus operating funds in money market mutual funds. These funds generally invest in highly liquid U.S. government and agency obligations. Investments in money market funds are not insured or guaranteed by the U.S. government.

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses in such accounts. Management believes the Hospital is not exposed to any significant risk on cash and cash equivalents.

**8. Commitments and Contingencies**

**Self-Insurance**

The Hospital has a self-insured healthcare plan for substantially all of its employees. The Hospital has obtained reinsurance coverage to limit the Hospital's exposure associated with this plan individually of \$160,000 with an aggregate limit of 125% of the group expected claims. At September 30, 2021 and 2020, the Hospital had accrued \$492,829 and \$475,642, respectively, under the self-insurance contract.

**Loss Contingencies**

The Hospital carries business and malpractice insurance coverage under a claims-made policy. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured. The Hospital intends to renew its coverage on a claims-made basis and has no reason to believe that it may be prevented from renewing such coverage. The Hospital is subject to complaints, claims and litigation due to potential claims which arise in the normal course of business. U.S. GAAP require the Hospital to accrue the ultimate cost of claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset and excluded from the table in Note 2. The Hospital has evaluated its exposure to losses arising from potential claims and has properly accounted for them in the financial statements as of September 30, 2021 and 2020.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

**9. Employee Retirement Plans**

**Defined Benefit Pension Plan**

The following table sets forth the funded status of the defined benefit plan (the Pension Plan) and amounts recognized in the Hospital's financial statements as of September 30:

	<u>2021</u>	<u>2020</u>
Benefit obligation	\$ <b>(14,450,459)</b>	\$ (15,243,076)
Fair value of plan assets	<u>10,703,905</u>	<u>10,080,048</u>
Funded status	<u>\$ (3,746,554)</u>	<u>\$ (5,163,028)</u>

Due to the frozen status of the plan, the benefit obligation represents both the projected and the accumulated benefit obligation.

The table below presents details about the Hospital's Pension Plan, including its funded status, components of net periodic benefit cost, and certain assumptions used in determining the funded status and cost:

	<u>2021</u>	<u>2020</u>
Change in benefit obligation		
Benefit obligation at beginning of year	\$ <b>15,243,076</b>	\$ 14,958,191
Interest cost	<b>317,034</b>	411,517
Actuarial (gain) loss	<b>(306,601)</b>	1,110,037
Benefits paid	<b>(803,050)</b>	(771,267)
Settlement	<u>-</u>	<u>(465,402)</u>
Benefit obligation at end of year	<u>\$ <b>14,450,459</b></u>	<u>\$ 15,243,076</u>
Change in plan assets		
Fair value of plan assets at beginning of year	\$ <b>10,080,048</b>	\$ 10,963,713
Actual return on plan assets	<b>859,000</b>	353,004
Employer contribution	<b>567,907</b>	-
Benefits paid	<b>(803,050)</b>	(771,267)
Settlement	<u>-</u>	<u>(465,402)</u>
Fair value of plan assets at end of year	<u>\$ <b>10,703,905</b></u>	<u>\$ 10,080,048</u>
Components of net periodic benefit cost		
Interest cost	\$ <b>317,034</b>	\$ 411,517
Expected return on plan assets	<b>(616,718)</b>	(659,173)
Immediate recognition of settlement	-	201,040
Amortization of unrecognized net actuarial loss	<u><b>611,596</b></u>	<u>458,577</u>
Net periodic benefit cost	<u>\$ <b>311,912</b></u>	<u>\$ 411,961</u>

## SPRINGFIELD HOSPITAL, INC.

### Notes to Financial Statements

September 30, 2021 and 2020

The following amounts were recognized in the Hospital's increase (decrease) in net assets without donor restrictions for the Pension Plan, excluding amounts recognized in net periodic benefit cost:

	<u>2021</u>	<u>2020</u>
Net actuarial loss	\$ 548,883	\$ (1,416,206)
Reclassification adjustment for amortization of net unrecognized actuarial loss	611,596	458,577
Immediate recognition of settlement	<u>-</u>	<u>200,217</u>
Change in net assets to recognize funded status of the Pension Plan	<u>\$ 1,160,479</u>	<u>\$ (757,412)</u>

Charged against net assets without donor restrictions at September 30, 2021 and 2020 are unrecognized actuarial losses of \$5,403,376 and \$6,563,855, respectively, which have not been recognized in net periodic pension cost. The actuarial loss for the pension plan that is expected to be amortized into net periodic pension benefit cost over the next fiscal year is \$536,359.

The assumptions used in the measurement of the Hospital's net periodic benefit cost and benefit obligation are shown in the following table:

	<u>2021</u>	<u>2020</u>
Weighted average assumptions at or for the year ended September 30		
Discount rate		
For determining net periodic benefit cost	2.14 %	2.83 %
For determining benefit obligation	2.45	2.14
Expected return on plan assets	6.25	6.25

To develop the expected long-term rate of return on plan assets assumption, the Hospital considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio. Target asset allocations are determined by the funded status of the pension plan and allocated between equity securities and bonds.

#### Plan Assets and Fair Value Measurement

The Pension Plan's investment objectives are to seek to achieve and maintain a fully funded position for Plan termination. The investment strategy for achieving and maintaining this position varies with the funded status and other parameters related to the overall goal. As the funded status rises, the Plan objective will move gradually toward maintaining that level and managing funded status volatility, rather than generating return. The investment portfolio is allocated on certain phasing thresholds of equities and bonds, based on the quarterly calculation of the funded status of the Plan. No more than 40% of the Plan's investments are allocated to equities. Performance of investments is evaluated against peer group median returns for three- and five-year cumulative periods and risk-adjusted performance. An investment option may be placed on a watch list and a thorough review and analysis of the investment option may be conducted as a result of performance, significant changes in assets or investment strategy, increases in fees and expenses, or any extraordinary event that may interfere with the ability to prudently manage the investment assets.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

The Hospital's Pension Plan weighted-average asset allocations at September 30, by asset category, are as follows:

	<u>2021</u>	<u>2020</u>
Mutual funds		
Fixed income	60 %	61 %
Equities	<u>40 %</u>	<u>39 %</u>
Total	<u>100 %</u>	<u>100 %</u>

FASB ASC 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2:** Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3:** Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets measured at fair value on a recurring basis are summarized below:

	<u>Level 1</u>	
	<u>2021</u>	<u>2020</u>
Investments – held by defined benefit pension plan:		
Mutual funds:		
Fixed income	\$ 6,426,312	\$ 6,166,487
Equities	<u>4,277,593</u>	<u>3,913,561</u>
Total investments – held by defined benefit pension plan	<u>\$ 10,703,905</u>	<u>\$ 10,080,048</u>

### Contributions

Expected employer contributions to the Hospital's defined benefit pension plan are \$377,912 in 2022.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

### Estimated Future Benefit Payments

The following benefit payments are expected to be paid over the next ten years:

Fiscal year	
2022	\$ 889,000
2023	903,700
2024	896,800
2025	884,200
2026	882,400
Years 2027 - 2031	4,223,000

### Defined Contribution Pension Plan

In 2006, the Hospital established a 401(k) retirement plan (the Plan) for substantially all of its employees. The Plan was retroactive to October 1, 2005 with regard to eligibility determinations and discretionary matching contributions by the Hospital. Employees are immediately eligible to contribute to the Plan and are 100% vested in their contributions. Employees become eligible for matching and other discretionary contributions once an employee has completed a 90-day probationary employment period. Discretionary contributions made by the Hospital vest to the participants over a five-year period. Total expense under the Plan was approximately \$7,550 and \$181,000 for the years ended September 30, 2021 and 2020, respectively.

### **10. Financial Improvement Plan**

The accompanying financial statements have been prepared in conformity with U.S. GAAP, which contemplate continuation of the Hospital as a going concern. The Hospital has incurred significant operating losses and negative cash flows from operations in recent years. On June 26, 2019, the Hospital filed a petition for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Vermont, and subsequently exited bankruptcy effective December 31, 2020 based on its plan of reorganization approved by the bankruptcy court (see Note 11). The Hospital's ability to continue as a going concern is dependent upon the success of its future efforts in generating sufficient revenues. The ongoing uncertainty related to COVID-19 may also have implications on the Hospital's financial position and results of future operations. These factors raise substantial doubt about the Hospital's ability to continue as a going concern.

Management continues to work diligently to improve the Hospital's cash and operating positions. Management is regularly reviewing operations to identify more cost effective and efficient ways to provide healthcare services that are appropriate for a rural hospital to be providing to the people of the service area. Some specific initiatives undertaken or planned for the future by the Hospital are:

1. Signed contract with second general surgeon in December 2021.
2. Recruitment of podiatrist completed in October 2021. The DPM started at one day per week and has expanded in February 2022 to two days per week.

# SPRINGFIELD HOSPITAL, INC.

## Notes to Financial Statements

September 30, 2021 and 2020

3. Replacement Revenue Cycle Director joined the team in May 2021. Analysis and evaluation of revenue cycle in process with improvement strategies being developed and implemented.
4. Changed Radiology Physician Group providers in November 2021. Estimated savings approximately \$300K/year.
5. Total review of the employee benefits program to better align with the market enhancing of health coverage for employees at a reduced cost. Continue to benefit with significant reduced costs compared to FY2019: FY2021 – \$2,395,000, FY2020 – \$2,462,000, FY2019 – \$4,835,000.

Management believes the relief provided under Chapter 11 of the federal bankruptcy laws and initiatives already taken provide the opportunity to allow the Hospital to continue as a going concern.

### 11. Exit from Bankruptcy

On December 11, 2020, the Bankruptcy Court confirmed the Hospital's plan for reorganization and the plan became effective December 31, 2020. As of the effective date, the Hospital accounted for the reorganization by stating liabilities compromised by the confirmed plan at the present values of the amounts to be paid. The excess of the reorganization value over the liabilities subject to compromise was recorded as "gain on bankruptcy reorganization" and is included in reorganization items on the statements of operations. The confirmed plan provided for the following:

- Secured debt – The Hospital's portion of the term note payable and line of credit was settled with a \$2 million payment by the State of Vermont in full satisfaction.
- State of Vermont (Class 2) – Aggregate amount of approximately \$9.1 million due to the State of Vermont for term loans and unpaid provider taxes was settled for \$5 million in loans. In addition, the State of Vermont provided the Hospital \$4 million in exit funding in the form of grants.

The State of Vermont has the right to review the Hospital's operations and compliance with its plan of reorganization obligations. Reviews are to be conducted by an external audit firm selected by the State of Vermont, on a quarterly basis in the initial year and semi-annually thereafter.

- CMS (Class 3) – Approximately \$4.6 million in outstanding Medicare overpayments were settled for \$4 million. The \$4 million is payable over an extended repayment schedule of sixty months, beginning March 2021. As part of the approved plan of reorganization, CMS expedited review of the 2018 underpayments, offsetting them against the principal balance and amortizing the reduced balance over the remaining term.

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

- Other priority tax claims – Penalties for prior late filings of payroll taxes were settled for approximately \$12,700.
- General unsecured trade claims – Holders of approximately \$5.9 million of trade and other miscellaneous claims, including the other priority tax claims described in the previous bullet, received approximately \$2.0 million in payment.

The Hospital and Springfield Medical Care Systems, Inc. (SMCS) emerged as separate organizations; as such, SMCS is no longer the parent of the Hospital. Officers and directors of the Board remain the same, except for two additional directors reviewed and approved by the State of Vermont. Medicare and Medicaid provider numbers remained intact, and the Pension Plan and capital lease obligations were not impacted.

Liabilities subject to compromise consisted of the following as of September 30, 2020:

Line of credit	\$ 947,504
Long-term debt	5,714,419
Estimated third-party payor settlements	3,473,165
Accounts payable and accrued expenses	7,867,909
Other current liabilities	<u>1,000,000</u>
	<u>\$ 19,002,997</u>

The following table summarizes the adjustments made to record the reorganization:

	Outstanding Balances as of Effective Date	Elimination of Debt	New Debt	Cash Payment	Post- bankruptcy Balances
Secured debt	\$ 6,661,923	\$ (6,661,923)	\$ -	\$ -	\$ -
State of Vermont (Class 2)					
Accounts payable and accrued expenses	6,811,311	(6,811,311)	-	-	-
Debt	<u>2,300,000</u>	<u>(2,300,000)</u>	<u>5,000,000</u>	<u>-</u>	<u>5,000,000</u>
	<u>9,111,311</u>	<u>(9,111,311)</u>	<u>5,000,000</u>	<u>-</u>	<u>5,000,000</u>
CMS (Class 3)	4,603,467	(603,467)	-	-	4,000,000
Other tax priority claims	555,510	(542,781)	-	(12,729)	-
Pre-petition general unsecured accounts payable	<u>5,391,657</u>	<u>(3,955,895)</u>	<u>-</u>	<u>(2,026,941)</u>	<u>(591,179)</u>
	<u>\$ 26,323,868</u>	<u>\$ (20,875,377)</u>	<u>\$ 5,000,000</u>	<u>\$ (2,039,670)</u>	<u>\$ 8,408,821</u>
Cash contribution from State of Vermont to Hospital		<u>\$ (2,000,000)</u>			
Gain on bankruptcy reorganization		<u>\$ (17,875,377)</u>			

**SPRINGFIELD HOSPITAL, INC.**

**Notes to Financial Statements**

**September 30, 2021 and 2020**

As part of the bankruptcy court's approval of the reorganization plan, \$484,685 was permitted as administrative expenses due from SMCS to the Hospital, payable over twenty-four months beginning July 1, 2021. The amounts due had been previously treated as equity transfers between the two organizations.
