

STATE OF VERMONT
GREEN MOUNTAIN CARE BOARD

In re: CON for Secure Residential Treatment Program in Essex (GMCB-002-21con)

The HCA plans to ask the following questions at the aforementioned CON hearing:

- Please explain your analysis for the current lack of community mental health capacity and how this new facility contributes to the system of care in Vermont.
- To what extent is the funding model based on residents consistently filling beds? How do you ensure that there is no financial motivation to fill beds?
- How does this facility align with Vermont's community health goals and the All-Payer Model?
