Donna Jerry  
Vermont Health Care Senior Administrator  
Green Mountain Care Board  
3rd Floor City Center  
89 Main Street  
Montpelier, Vermont 05620-3601

Dear Donna,

We are proposing to transfer 9 licensed beds from our Bradford facility to our Vergennes facility. After transfer, we will have 71 licensed beds in Bradford and 28 licensed beds in Vergennes.

This licensed bed transfer will consolidate all women's services in Vergennes and enable us to establish a Covid isolation unit for men in Bradford. While our total licensed beds will not change, individual licenses for each facility will require reissuance by the Department of Disabilities, Aging and Independent Living. Total capital expenditure for this project is approximately \$30,000.

I request the Board issue a jurisdiction determination in this matter so that we can proceed with our Department of Disabilities, Aging and Independent Living Department of Health Division of Alcohol and Substance Abuse Programs review.

Sincerely,

Jack Duffy  
Executive Director  
Valley Vista
