

# MIDDLEBURY HEALTHCARE COMMUNITY MEETING

ACT 167 (2022) COMMUNITY ENGAGEMENT TO SUPPORT HOSPITAL TRANSFORMATION

July 30<sup>th</sup>, 2024

#### **WHO IS HERE TODAY**

Porter Medical Center

### Vermonters with whom we have worked:

Provider networks

State agencies

Legislators Legislators

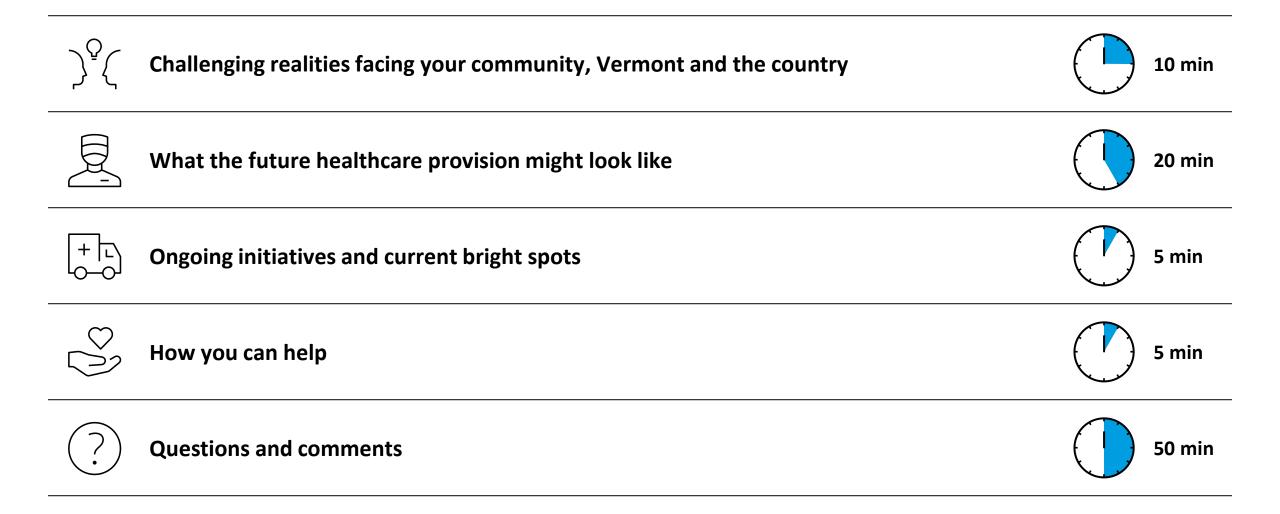

Community-based organizations

Community-based advocates

#### WHY ARE WE HERE TODAY?

- 1. To report what you and other members of your community told us
- 2. To explain the problems facing the healthcare community
- 3. To share options and potential transformation efforts to maintain and enhance appropriate health services in the community
- 4. To encourage your community and hospital to participate in efforts to transform healthcare in Vermont led by Agency of Human Services and supported by GMCB

#### **TODAY'S AGENDA**

#### WE HEARD FEEDBACK FROM <u>YOUR</u> COMMUNITY IN MIDDLEBURY LATE LAST YEAR

Many individuals don't go to care because the premiums and out-of-pocket values are too high

I find that insurance coverage, Medicare in particular, have extremely poor coverage of Estrogen options

Drug costs are high and it's the complex ones that are most expensive

Mental health numbers are increasing, and it is posing a risk to our staff

Getting the coordinated care that integrated electronic health records should provide is not here yet

Practices are overwhelmed and patients are sent to the emergency room. Patients need in-home care, but practices are too overwhelmed to do so

#### SIMILAR COMMENTS WERE MADE IN OTHER COMMUNITIES ACROSS THE STATE

The lack of housing is a problem making it hard to attract providers, and impossible for patients who have nowhere to be discharged

Keeping staff is a function of addressing the cost of living, inflation, and ability to find affordable housing, and these have all been difficult

There isn't enough transportation to other hospitals if the community needs a major surgery or other locally inaccessible service

Getting patients home has been a challenge because the hospitals sending the patients back are also experiencing challenges arranging transportation

When I go to the urgent care clinic, I may not see a provider because of the workforce shortages

It's difficult to find primary care providers, and difficult to communicate between physicians in the community and in other hospitals

Many individuals don't go to care because the premiums and out of pockets are too high

I can no longer afford the procedures or medications — only option is not to take my medications

No one tells patients about financial services or campaigns available to support their broader health and social needs Gender-affirming and reproductive health access is an issue and there needs to be greater availability

### ALL VERMONT COMMUNITIES ARE FACING SIGNIFICANT CHALLENGES TO HEALTHCARE ACCESS, EQUITY, AND AFFORDABILITY

#### **Access challenges**

Difficulty in getting primary care appointments

Long waits in the ER

Long ambulance waits

#### Affordability challenges

**~60-80%** increase in insurance premiums plans in past 6 years<sup>1,3</sup>

>100% increase in out of pocket max in the past 5 years<sup>2</sup>

Long/difficult travel/ transportation to care site

Long waits to get elective procedures

High costs of healthcare and housing without income increases

Source: 1. GMCB Vermont Hospital Budget Deliberations (<u>link</u>, <u>link</u>, <u>link</u>,

### EVERY VERMONT HOSPITAL IS FACING SIGNIFICANT OPERATIONAL AND FINANCIAL CHALLENGES, MANY ARE OUT OF THEIR CONTROL

#### Operational challenges

since COVID

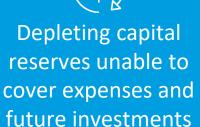

#### Financial challenges

due to inflation

Increasing complications with reimbursement

Source: 1. GMCB hospital financial records

### THESE CHALLENGES HAVE CAUSED MOST VERMONT HOSPITALS TO EXPERIENCE A SIGNIFICANT DECLINE IN FINANCIAL HEALTH

#### **Outlier year due to federal COVID relief**

	FY19	FY20	FY21	FY22	FY23
Brattleboro Memorial Hospital	0.8%	0.6%	-1.7%	-3.8%	-1.7%
Central Vermont Medical Center	-2.1%	-0.6%	-1.0%	-6.5%	-6.5%
Copley Hospital	-3.2%	-3.9%	5.1%	-0.7%	-1.8%
Gifford Medical Center	-0.8%	2.5%	8.8%	7.0%	-8.3%
Grace Cottage Hospital	-6.7%	1.1%	8.0%	-6.8%	-8.9%
Mt. Ascutney Hospital & Health Center	0.2%	0.7%	9.1%	1.7%	2.0%
North Country Hospital	1.9%	3.7%	4.6%	-10.3%	-8.9%
Northeastern VT Regional Hospital	1.8%	1.3%	2.9%	0.2%	0.5%
Northwestern Medical Center	-8.0%	-0.9%	4.7%	-4.3%	-6.6%
Porter Medical Center	5.1%	4.0%	7.7%	3.1%	7.6%
Rutland Regional Medical Center	0.4%	0.2%	2.2%	-3.8%	2.1%
Southwestern VT Medical Center	3.3%	2.8%	4.5%	-0.2%	-3.8%
Springfield Hospital	-18.4%	-11.2%	1.2%	5.4%	-0.9%
The University of Vermont Medical Center	2.2%	-0.3%	2.3%	-1.2%	3.1%
All Vermont Community Hospitals	0.7%	0.1%	2.8%	-3.3%	0.3%

#### 9 OUT OF 14

Hospitals ended with negative operating margins in FY2023

Source: https://gmcboard.vermont.gov/sites/gmcb/files/documents/167%20-%20 brief%20 history%20 and %20 motivation%206.19.pdf

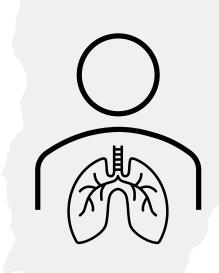

### EVERY VERMONTER'S COST FOR HEALTHCARE HAS MARKEDLY INCREASED OVER THE PAST 6 YEARS

Source: All graphs shown are nominal values 1. Income, FRED inflation 2. GMCB Vermont Hospital Budget Deliberations (link, link) 3. KFF analysis of data from Healthcare.gov, state rate review websites, state plan finder tools and CMS analysis of rate changes in the benchmark silver plan, October 2023 (link), 4. GMCB analysis

Note: 5. Premiums are monthly. Premiums were analyzed using the lowest-cost premium for each metal tier (bronze, silver, and gold) and the second-lowest-cost silver (benchmark) premium for a 40-year-old in each county and weighted by county plan selections. In some state-based marketplaces, the premium data for some years are at the rating area level and are mapped to counties before weighting by county plan selections.

#### TO EVALUATE THIS PROBLEM, WE DID WHAT DOCTORS DO

#### **Diagnosis**

What are the causes of the systemic problems and community healthcare needs that you have shared?

#### **Prognosis**

Based on what we have found and heard, what does the <u>unaltered</u> future hold?

#### **Treatment**

What are the options and opportunities to address these problems and ensure the sustainability of your health system?

As users (patients of the system), YOU get to shape the treatment

### WE LISTENED TO MULTIPLE GROUPS AND INDIVIDUALS TO BETTER UNDERSTAND CURRENT AND FUTURE NEEDS OF VERMONT'S HEALTHCARE SYSTEM

1800+
PARTICIPANTS

Across all stakeholder types and meetings<sup>1</sup>

~52
PARTICIPANTS

On average per community meeting, including state-wide meetings

100+

100 -

**ORGANIZATIONS**

93+
PUBLIC COMMENTS

Received

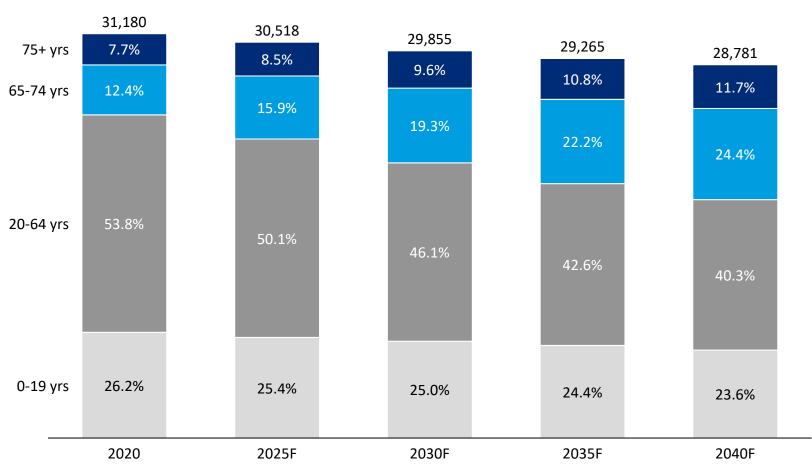

Meeting Type	# of Meetings	Estimated # of Attendees <sup>1</sup>
Stakeholder meetings on engagement plan	16	91 <sup>2</sup>
Hospital Leadership and Boards	56	476
Diverse Populations <sup>3</sup>	13	96
State Partners	35	176 <sup>4</sup>
Community Leaders	3	6
Community Meetings (public health service area level)	18	931
Provider Meetings (public health service area level)	14	460
Provider interviews and sessions	15	128

<sup>1.</sup> The number of attendees provided is an estimate as there are pending meetings, and technical errors/malfunctions in producing some attendance reports; 2. The 91 participants are excluded from the 1.8K total as they are accounted for in the other meeting types 3. Vermont's diverse populations – driven by (but not limited to) populations served by organizations receiving Health Equity grants as reported healthvermont.gov – include those identifying as BIPOC, Immigrant & Refugee, LGBTQIA+, those with shared medical conditions (e.g., disabled, neurodivergent, psychiatric, substance abuse), older Vermonters, isolated Vermonters, incarcerated, and the unhoused 4. Includes AHS field director calls

### AS THE MIDDLEBURY COMMUNITY AGES, YOUR HEALTH NEEDS BECOME COMPLEX AND DIFFERENT SERVICES WILL BE NEEDED

#### Projected Middlebury population break-down<sup>1</sup>

2020-2040F

Population is aging and shrinking by ~8%, reducing working force and increasing Medicare eligible patients

Working age population will decline by ~31%, making it impossible to sustain healthcare payments with commercial premiums

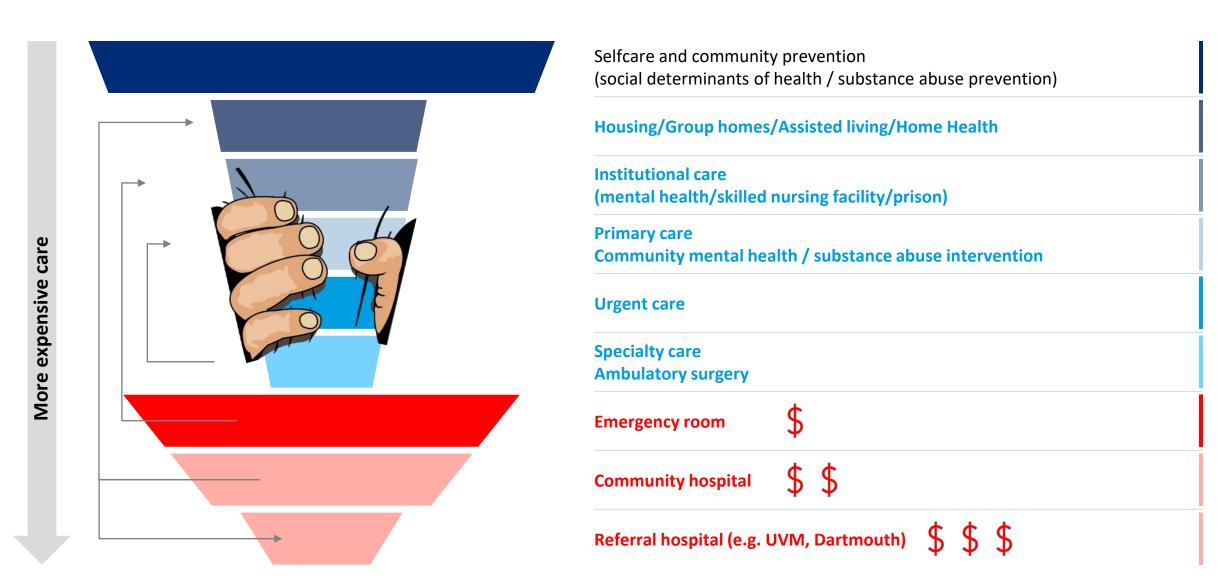

Cancer, heart disease, and strokerelated hospitalizations will increase as population ages

There will be increased demand for long term care, memory care, and assisted living facilities as well as physician visits

Sources: MPR VT Population by HSA, Trends in Supply of Nursing Home Beds, 2011-2019 (Miller et al., link), AHS Consumer Guide to VT Long-term Care Facilities (Jan 2020, link) NIH State Cancer Profiles Incidence Rate Report for Vermont by County in 2016-2020 (link), Oliver Wyman analysis, CDC Interactive Atlas of Heart Disease and Stroke

### IF CARE IN THE LESS EXPENSIVE PRIMARY CARE SETTING IS UNAVAILABLE, PATIENTS ARE FORCED TO GET CARE IN MORE EXPENSIVE EMERGENCY DEPARTMENTS OR HOSPITALS

### EVEN WITH INCREASES IN COMMERCIAL RATES, FORECASTED HOSPITAL MARGINS AT PORTER MEDICAL CENTER WILL NOT BE FAVORABLE IN THE FUTURE

#### Submitted and approved hospital charge increases

(%, 2018-2024)

	2018	2019	2020	2021	2022
Submitted	0.0%	-1.0%	0.0%	0.0%	5.9%
Approved	0.0%	-1.0%	0.0%	0.0%	4.0%

#### 5 year average: 1.0% requested, 0.6% approved

	2023	2024
Submitted	3.5%	6.9%
Approved	3.5%	3.1%

2 year average: 5.2% requested, 3.3% approved

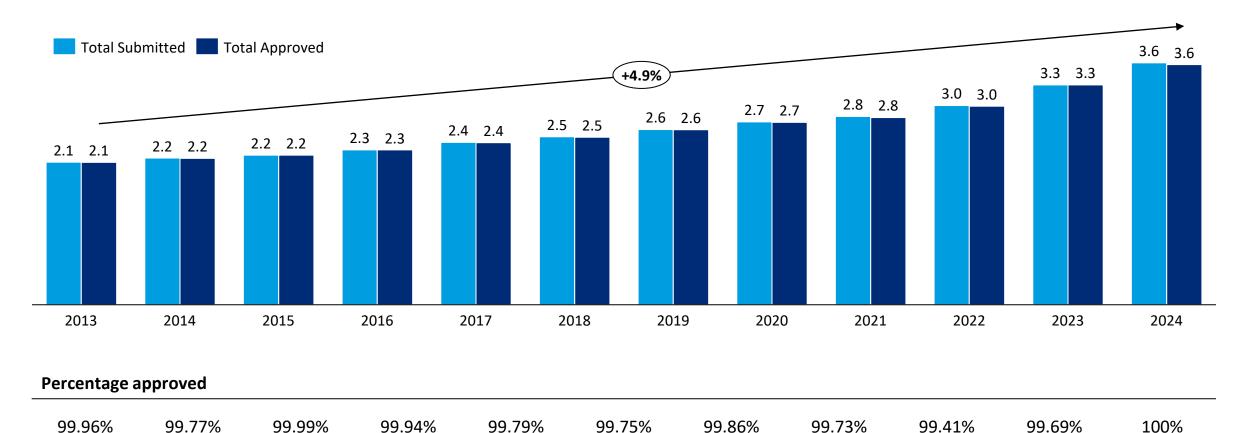

Porter Medical Center operating margin forecast comparison (%, 2018-2028F)

<sup>1.</sup> Operating revenue include Covid-19 related government supports in 2020-22; 2. Assuming forecasted non-operating income is at the average level between 2018 and 2023, with 3% CAGR in line with inflation. Source: GMCB hospital financial records, Rate increase analysis 2018-2022 and 2023-2024, Oliver Wyman analysis

### IN THE PAST DECADE, GMCB HAS APPROVED HOSPITAL REVENUE GROWTH AT ~5% ANNUALLY, WITH >99% APPROVAL RATIO CONSISTENTLY

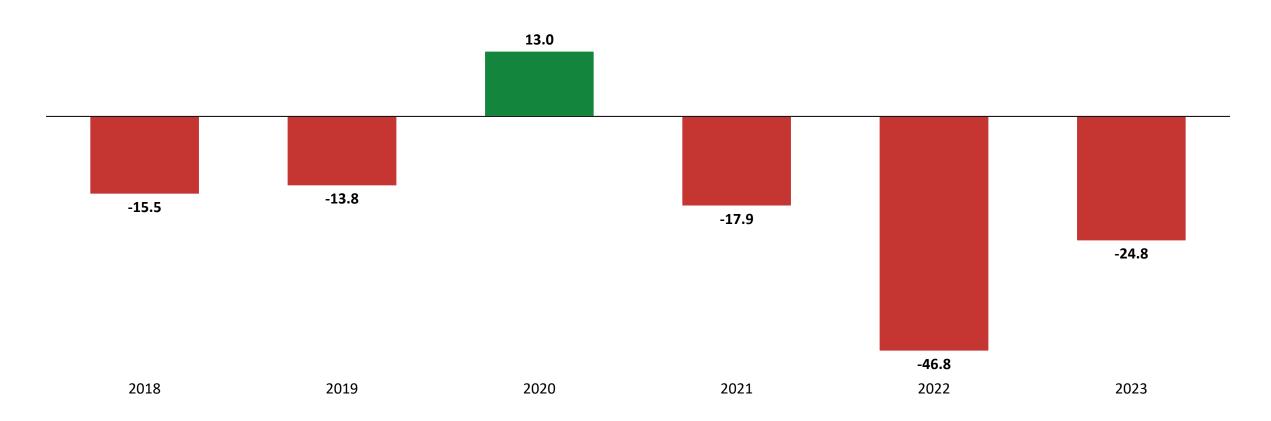

Total Net Patient Revenue and Fixed Prospective Payment across Vermont hospitals, Requested vs. Approved 2013-2024, USD BN

### COMMERCIAL INSURANCE HAVE BEEN MAKING LOSSES FROM PAYING HEALTHCARE EXPENSES USING INSURANCE PREMIUMS

**BCBS VT Net Underwriting Gain / Loss** 

2018-2023, USD MN

Source: BCBS Vermont Financial Submissions to the Department of Financial Regulation

### HOSPITALS HAVE EMPLOYED TYPICAL MEASURES TO IMPROVE THEIR FINANCIAL HEALTH, BUT THESE HAVE BEEN LARGELY UNSUCCESSFUL

**Increase Commercial Prices** 

**Reduce Operational Costs** 

Request Financial Relief (from State, Donors)...

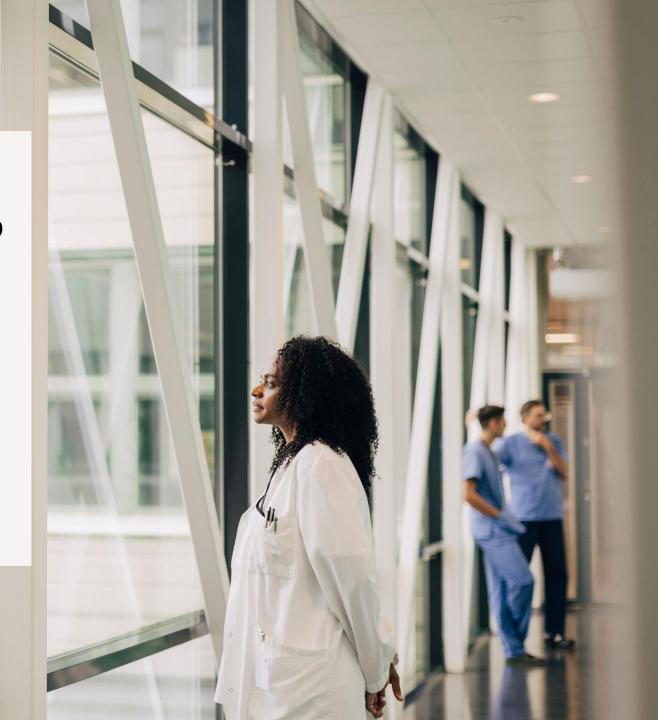

**Increase Volume of Services** 

Treatment

Hospitals cannot solve these problems alone. Different and more innovative approaches are needed to reduce costs and improve health services for the community

Solving Vermont's challenge requires concerted, sustained systems transformation with the Green Mountain Care Board and Agency of Human Services assistance.

### SO, WHERE DO WE GO FROM HERE?

What can the future of healthcare in Vermont look like? What will it require? What is already underway?

#### WHAT DOES CHARTING A PATH FORWARD LOOK LIKE?

Recognize current situation and future headwinds

Change what you can and build on ongoing efforts to make major changes in how healthcare is delivered in your community

Improve access and equity and constrain healthcare costs for the Middlebury community

Ensure financial stability for healthcare services in Middlebury and for Vermont

The time to act is now

### THE SYSTEM NEEDS TO ADDRESS CURRENT AND FUTURE UNMET NEEDS IDENTIFIED BY YOUR COMMUNITY

Porter Medical Center Mission and Vision

#### Mission

To improve the health of our community, one person at a time

#### Vision

To be a transforming, integrated, modern healthcare system of choice

Middlebury Medical & Service Needs

Housing

Access to health services

Access to mental health services

Source: Hospital community health needs assessments, OW notes from Phase 1 discussion with hospital leadership team and board members

### THERE ARE EXISTING EFFORTS UNDERWAY IN YOUR COMMUNITY AND AT PORTER MEDICAL CENTER TO ADDRESS CURRENTLY IDENTIFIED NEEDS

Porter's integration with UVM Health Network including the electronic medical record, reduces administrative burden and helps patient care coordination.

High quality of care in Middlebury recognized by patients.

Investment in primary care delivery model to increase patient access and quality of care.

Recruiting specialists, orthopedics, cardiology, primary care.

Planning to invest in emergency dept that will support mental health services.

Access to specialty care locally.

PMC provides space for free 'Open Door' Clinic to operate.

Increased screenings to address social determinants of health and health related social needs.

Community health team supported by the Blueprint for Health supplies free services within primary care offices.

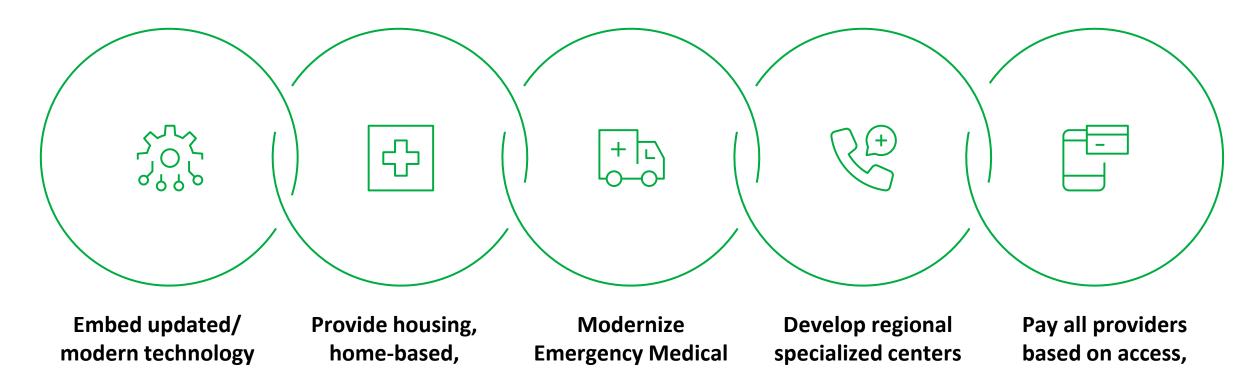

DEI education to promote equity and inclusion for patients and staff.

Network care coordination system to support patient care, right place, right time.

Workforce pipeline initiatives in nursing and allied health to grow local opportunities.

### CHANGES AT BOTH HOSPITAL AND SYSTEM LEVEL CAN HELP FULFILL CURRENT AND FUTURE HEALTHCARE NEEDS

Services and

transportation

services

quality, efficiency

and equity

We want to move to a future healthcare system in Vermont that focuses on earlier identification and treatment of illness, and patients being able to obtain care at the most appropriate level - in their home, in their community, or close by

community-based,

and mobile care

### SOME OF THE POTENTIAL OPTIONS AT THE HOSPITAL AND CROSS-HOSPITAL LEVEL CAN HELP ACHIEVE THE CHANGE NEEDED FOR A BRIGHTER FUTURE

#### Some local transformation options

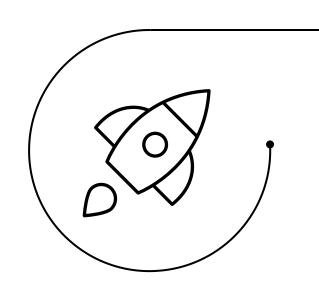

+ 1

**₹** 

- Increased use of telehealth for Emergency Room/UrgiCare and specialists
- Increased use for remote monitoring and patient follow-up
- Expand rural outreach programs for primary care and preventative services
- Expand primary care/Urgicare hours to permit access for working people
- Contract full-time paid professional Emergency Medical Services organisations
- Develop state-wide bed availability monitoring
- Develop regional service line specialization with other hospitals
- Create multi-hospital support services (e.g. back office, specialty physician group)

Establish programs targeted at high needs groups/ individuals (e.g. health at home programs)

### NEXT STEP: DECIDE TO TRANSFORM AND TRANSLATE FUTURE VISION INTO APPROPRIATE LOCAL CHANGES AND IMPLEMENT

1 - 2 - 3 - 4 - 5 - 6

#### **Decision to change**

Agency of Human Services convenes communities and hospitals to design necessary transformation

#### 2

#### **Identify options**

Communities and Agency of Human Services decide on critical transformation options

#### 3

#### Analyze viability and impact

Agency of Human Services and others conduct viability and impact analyses on selected transformation options

#### 4

#### **Conduct planning discussions**

Conduct state-facilitated multiprovider system-wide planning discussions (if chosen)

#### 5

#### Align budgets

Confirm transformation plan and align on state and community budget targets and plans

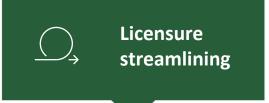

#### **Act on transformations**

Act on required state-level and community level transformations

### MANY ONGOING INITIATIVES AT THE STATE LEVEL ARE ALREADY UNDERWAY TO TACKLE SYSTEM-WIDE CHALLENGES SEEN IN VERMONT

- ✓ Improved master patient index
- √ 5-year strategic plan
- 'Unified data space' data aggregator
- ☐ Provider single sign-on
- ☐ Co-develop use case with providers
- ☐ Provider 'self-help' data analysis tool
- ☐ Collaborate with payers to obtain pharmacy data
- Modernize integrating enrolment eligibility (*legislative effort, 5-year runway*)

- ✓ Joined social work compact (effective upon passing)
- ✓ Joined counselling and Psychology Interjurisdictional Compact (effective 1 July upon approval)
- ✓ Allowed bachelor-level mental health professionals to obtain license in VT
- ✓ In 2020, approved short-term prescription extension by pharmacist (until consultation, up to 5 days, one time only)
- Act 117 to review mental health licensure in VT to streamline and further remove barriers to licensure (study due Dec'24)

- ✓ Mobile crisis response (since Jan'24, link)
- ✓ New psychiatric residential treatment facilities (youth, forensic)
- ✓ Centralized dispatch from 988
- ✓ 6 new delivery system projects, funded by \$100k by OneCare (link)
- √ \$1 million, one-year Certified Community-Based Integrated Health Centers Planning Grant (extended to March'25) (link)
- ✓ Department Mental Health Vision 2030 on mental health integration across the healthcare setting (link)
- ☐ Department mental health global referral checklist
- Seek alternative to hospital-based administration of court ordered medication

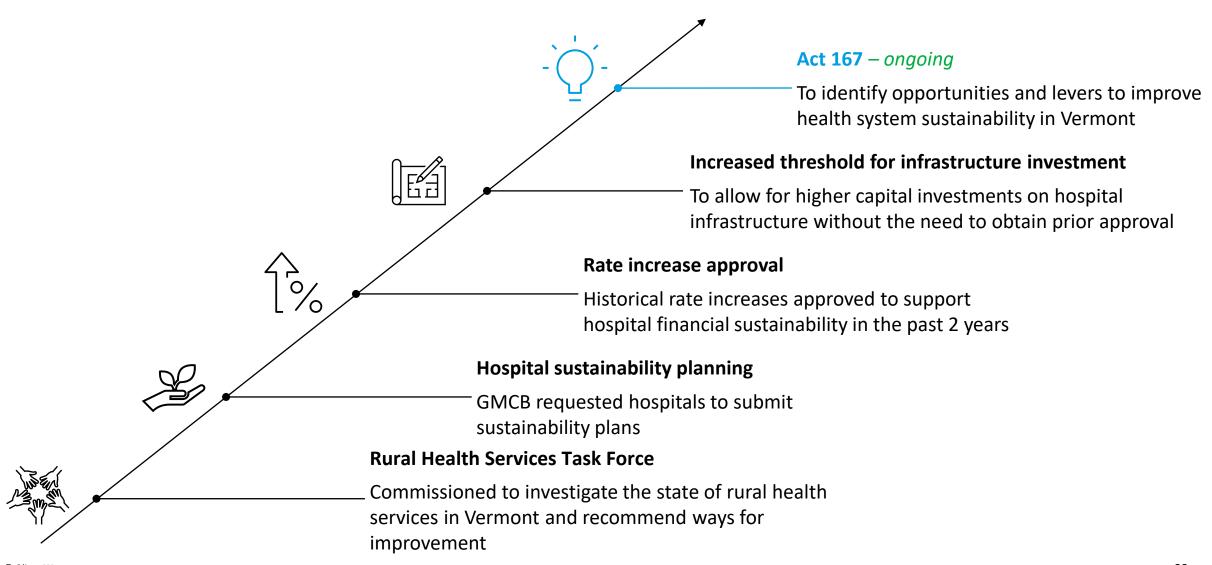

Select initiatives only, non-exhaustive

- Age Strong Vermont Plan (link)
- Skilled nursing facility bed board (from March'24)
- ✓ 3 Adult Services Division complex care nurses to help with care coordination
- Nursing facility retrospective rate adjustments
- ✓ Rate review for residential care, assisted living, home health, and adult day (<u>link</u>)
- Root cause analysis for hospital case managers to address complex discharges
- ☐ Further expedite new application process for long-term care Medicaid eligibility process
- Reduce minimum occupancy threshold on nursing homes (<u>link</u>)
- Seek to bring more long term care capacity to Vermont

Key: ✓ Completed ☐ Ongoing

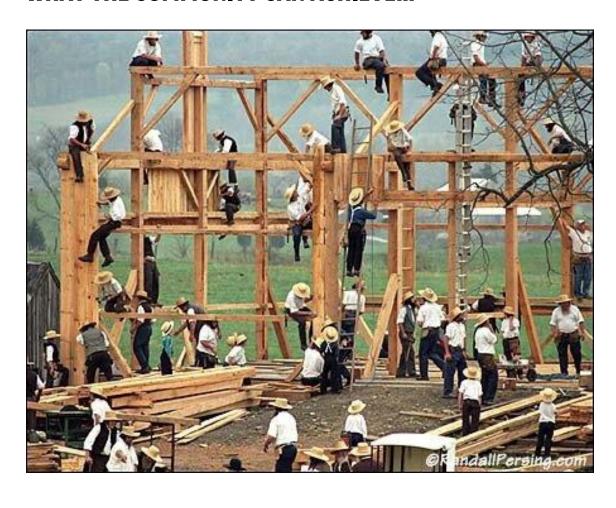

#### **GMCB HAS ALSO BEEN WORKING ON MANY INITIATIVES**

## WHERE DO YOU GO NEXT AND HOW YOU CAN GET INVOLVED

### CHANGE CANNOT HAPPEN BY ITSELF...IT'S FACILITATED BY ACTIVE COMMUNITY ENGAGEMENT AND BROADER TRANSFORMATION

#### WHAT THE COMMUNITY CAN ACHIEVE...

#### **WILL REQUIRE BROADER STATE CHANGE...**

Build housing, group homes, assisted living, and other facilities

Improve transportation for people and patients

Enlarge workforce and improve support

Reduce and simplify administrative work

Create new pathways for appropriate levels of carein each community. Expand existing pathways.

### THE RUNWAY TO CHANGE IS SHORT AND REQUIRES IMMEDIATE ACTION AND ENGAGEMENT AT ALL LEVELS WITHIN THE COMMUNITY, HOSPITAL, AND STATE

YOU DON'T HAVE THIS...

**YOU HAVE THIS...** 

### OUR TEAM'S WORK AND THIS PRESENTATION ARE ONLY THE FIRST STEPS IN THE PROCESS NEEDED TO DESIGN THE FUTURE, IT WILL NEED YOUR SUPPORT TO BUILD YOUR FUTURE

## INFORM ABOUT URGENCY FOR ACTION

## SUPPORT LOCAL CHANGE

IMPROVE HEALTHCARE ACCESS, QUALITY & AFFORDABILITY

We must act now to implement structural changes within the next 5 years

Engage your community to plan for the future

Deliver structural reforms rather than band aid solutions

# 

For your time and for helping to shape and plan for the future of your community and Vermont
