GREEN MOUNTAIN CARE BOARD

## 2024 Medicare Benchmark Final Recommendation \& Vote

Lindsay Kill, Data Analytics \& Information Chief Michele Degree, Health Policy Project Director

## Staff Recommendation

- Use the maximum allowable trend for OneCare Vermont's Medicare Benchmarks:
- 4.3\% for Non-ESRD
- 6.7\% for ESRD
- Request advanced shared savings of \$9,956,390 to fund Blueprint for Health Programs and SASH.
- Blueprint: \$5,253,820
- SASH: \$4,702,570

## Trade-Offs for Using Maximum Trend

- Vermont hospitals are financially fragile, a trend observed nationally.
- The maximum trend will increase the amount of federal dollars available through the current All-
Payer Model, especially for Blueprint and SASH.

1. CONS

- The maximum trend may endanger the ability of the state to fulfill its financial targets from the APM Agreement.
