

Green Mountain Care Board

Vermont Hospital Enforcement Analysis

System Summary
FY 2015 Actuals

Updated May 2016

Purpose of the report

This report compares the actual 2015 operating results to the 2015 Budgets of the Vermont hospitals. Included is an overview of key trends and indicators for the system.

For fiscal year 2015, the Green Mountain Care Board's Enforcement policy is in effect. This report also provides an analysis of whether or not each hospital is within the allowed 0.5% variance for 2015 (budget to actual).

If you have questions about the report, please contact Michael Davis, Janeen Morrison, or Lori Perry at the GMCB (802) 828-2177.

Vermont Hospital System 2015 Summary

Operating results and trends

Summary Comments

The following slides present the system findings comparing the 2015 actuals to the 2015 approved hospital budgets. My findings are as follows:

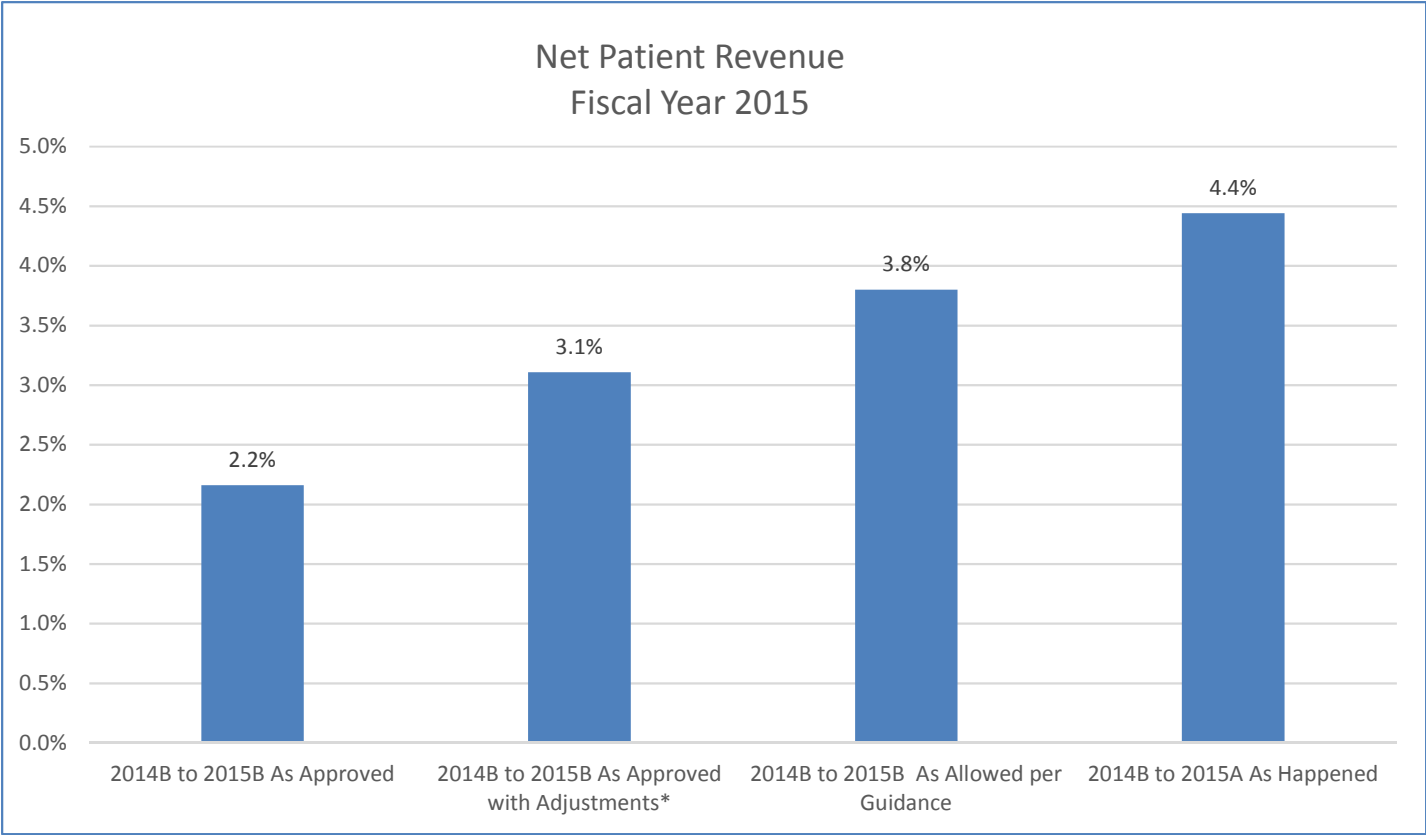

The overall net patient revenues in the system were higher than budget by \$49 million,

This increase in revenues was primarily driven by favorable bad debt and free care of \$47 million,

Overall utilization was higher than budget and offset reductions in payer reimbursement,

And the operating surplus across the system was higher by \$34 million.

Hospital System Budget Performance

* To reflect real change in NPR, NPR growth was adjusted for: Central Vermont Medical Center, Gifford Medical Center, Southwestern Vermont Medical Center, Springfield Hospital and The University of Vermont Medical Center.

Budget to Actual 2015 Operating Results

Actual net patient revenues came in 2.2% over the 2015 approved budgets. This explains most of the operating income (aka surplus) increase of \$34 million.

Individual Hospital Budgets

Net patient revenues (NPR) are those revenues earned for providing services directly related to patients. Nine hospitals were higher than budget and five hospitals had NPRs lower than budget. The overall system NPR was \$49.2 million more than the approved budget.

Budget to Actual Analysis of NPR by Payer

The hospital budgets saw higher Medicare, Medicaid and Commercial/Self pay net patient revenues (NPR). Changes in bad debt and free care, reimbursement changes, and utilization change all influence the variances across payers.
