Hospital Issues

Workforce

- Provider turnover (Radiology)
- Utilization of locum physicians for call coverage
- Traveling RN and tech staff (OR, Radiology)
- Tight labor market
 - Difficult to find individuals to fill open positions
 - Wage pressures
 - Retention

Access to Capital

- Utilizing reserves to fund capital budget – FY18 & 19
- Age of plant/equipment rising

Health Care Reform – All Payer Model

- Participating w/Medicaid in 2019
- 2020 – Medicaid and Cigna (FQHC)
- Ongoing – difficulty in assuming additional risk

Areas of Risk/Opportunities

Risks

- Ability to expand risk-based reimbursement agreements
 - Maintaining cash reserves in down years
 - Our small size can result in greater year-to-year financial volatility
- Ability to retain staff, maintain competitiveness in compensation, benefits
- Ability to recruit to a rural area
- Access to capital to fund capital expenditures
- Limit to cost reduction work
- Lack of understanding of FQHC/CAH payment models by outside sources

Opportunities

- Connection between primary care and hospital-based services
- Community health/outreach, population health
- Process for identifying operational efficiencies
- Models of care leveraging community partnerships (i.e. CAH, FQHC, DA, dental, other community partners)
 - Post-Acute Care Clinic
 - Substance Use Disorder – Narcan distribution site, drug take-back Kiosk
 - Athletic Training program w/schools
 - Community Health/outreach
 - Food Shelf programs
