Executive Director's Report

We continue to provide education on the fundamentals of our regulatory work. Today's meeting will include information and an update on the Health Resource Allocation Plan (HRAP) and an update on the Hospital Budget Review Process.

Our Jan 18, 2023 Board Meeting will start at 2pm instead of 1pm. During that meeting, we will hear background that will inform our regulatory hospital budget oversight. We'll also hear a presentation on Rural Hospitals' Financial Health from the Director of the Sheps Center at the University of North Carolina, Mark Holmes, PhD. The Sheps Center studies the challenges of rural health care and ways to sustain that care in rural communities throughout the country. Additionally, we'll hear from Eric Shell of Stroudwater Associates. Eric is an expert on rural hospitals, value-based care, and critical hospital finances. And lastly, we'll hear an update from the GMCB staff on the work we were given through Act 167 of 2022 specifically on hospital and community engagement and work on developing global payments.

The Board has asked its advisory committees to provide written comment to inform a potential future agreement with the State of Vermont. The Board also encourages the general public to comment on this information at any time. Comments are shared with the Governor's Office and the Agency of Human Services who lead the negotiations.
