Conceptual Certificates of Need

18 V.S.A. § 9434(c): In the case of a project that requires a certificate of need under this section, expenditures for which are anticipated to be in excess of ~~\$33,653,864.00~~ \$36,000,000.00, the applicant first shall secure a conceptual development phase certificate of need, in accordance with the standards and procedures established in this subchapter, that permits the applicant to make expenditures for architectural services, engineering design services, or any other planning services, as defined by the Board, needed in connection with the project. Upon completion of the conceptual development phase of the project, and before offering or further developing the project, the applicant shall secure a final certificate of need in accordance with the standards and procedures established in this subchapter. Applicants shall not be subject to sanctions for failure to comply with the provisions of this subsection if such failure is solely the result of good faith reliance on verified project cost estimates issued by qualified persons, which cost estimates would have led a reasonable person to conclude the project was not anticipated to be in excess of ~~\$33,653,864,~~ \$36,000,000.00 and therefore not subject to this subsection. The provisions of this subsection notwithstanding, expenditures may be made in preparation for obtaining a conceptual development phase certificate of need, which expenditures shall not exceed ~~\$1,682,693.00~~ \$1,800,000.00 for non-hospitals or ~~\$3,365,386.00~~ \$3,600,000.00 for hospitals.
