

# **Green Mountain Care Board**

## **Department of Vermont Health Access (DVHA) Presentation of Proposed 2025 Standard Qualified Health Plan (QHP) Designs**

**Dana Houlihan, (DVHA) Plan Management Director  
Darren Johnson, Julie Peper, Jared Asprer  
of Wakely Consulting, an HMA Company**

**January 31, 2024**

# 2025 Standard Qualified Health Plans Presentation Objectives

- I. **Provide Overview:** Supporting Information and Approach For Developing 2025 Proposed QHPs for Vermont Health Connect  
(Dana Houlihan)
  
- II. **Describe (Draft) Federal Guidance Changes Present Proposed Plan Designs:**  
Recommendations, Alternatives, Considerations  
(Darren Johnson, Julie Peper, Jared Asprer: Wakely Consulting)
  
- III. **Comments, Questions & Discussion**
  
- IV. **GMCB Vote**

# Summary of Qualified Health Plans Currently Offered By VHC (2024)

## Twenty-eight (28) medical plans\*:

### For Review Today:

#### 14 Standard plans (7 from each issuer)

- Platinum: 1 BCBS & 1 MVP
- Gold: 1 BCBS & 1 MVP
- Silver: 2 BCBS & 2 MVP (One from each issuer structured as HDHP)
- Bronze: 3 BCBS & 3 MVP (One from each issuer structured as HDHP)

### Also Offered on the Vermont Marketplace:

#### 14 Non-Standard plans: (7 from each issuer):

- Gold: 2 BCBS & 2 MVP (One from each issuer is structured as HDHP)
- Silver: 2 BCBS & 2 MVP (One from each issuer is structured as HDHP)
- Bronze: 2 BCBS & 2 MVP (One from each issuer is structured as HDHP)
- Catastrophic: 1 BCBS & 1 MVP (Not included in one-page handout)

\* Refer to one-page handout displaying 2024 medical QHP benefits & rates

# Planning for 2025 Standard QHPs Stakeholder Group Composition

## **DVHA:**

Plan Management Director

**All VT Issuers:** BCBSVT, MVP, NEDD

**Vermont Office of Healthcare Advocate**

**Department of Financial Regulation Staff**

**Green Mountain Care Board Staff**

- 
- Stakeholders met regularly from November 2023 – January 2024
  - Stakeholders are actively involved, reviewing updated plan modeling to meet AV compliancy requirements, leading to the final QHP design proposal with broad-based support

# 2025 Stakeholder Group Benefit Design Principles

- **Value:** Provide compliant, comprehensive coverage
- **Affordability:** Balance impact on premium vs. consumer cost-share
- **Stability:** Implement cost share changes gradually to minimize large cost share or premium increases in future years
- **Attractiveness:** Focus on increased simplification of plan benefit designs and messaging for customers with different medical needs, a range of income levels
- **Usefulness:** Create/maintain incentives for low-cost primary & behavioral health care visits, emphasis on low-cost Generic Pharmacy, no-cost preventive services

# 2025 Stakeholder Group Benefit Design Principles

## Affordability

- Higher actuarial value (AV) generally aligns with higher premiums
- At the silver level, higher premiums mean increased advanced premium tax credits (APTC) available to eligible enrollees
  - APTC amount is tied to the second lowest cost silver plan premium
- The State supports the goal of maximizing silver AV in order to increase subsidy availability
- Federal AV ranges facilitate this principle
- Silver loading will continue in the 2025 plan year

# 2025 Stakeholder Group Process Highlights

- **Strategic, Minimal Increases:** Balancing required changes across cost-share for multiple services, avoiding abrupt year/year changes.
- **Overall Cost:** Being mindful of benefit cost share decisions and their anticipated corresponding premium impact
- **Consumer Education (O & E):** Being mindful of proposing plan designs that are consistent and customer-friendly

# 2025 QHP Certification High-Level Timeline:

- **DVHA Presents Plan Design Adjustments; GMCB Approval:** February 2024
- **Medical & Dental Issuers File Forms With DFR:** March 2024  
(Form review finalized, form approval: June 2024)
- **Final Notice of 2025 Benefit and Payment Parameters and the IRS limits on HDHPs:** (Expected, Spring 2024)
- **Issuers Submit Rate Proposals:** May 2024  
(GMCB completes rate review & issues decisions: August 2024)
- **2025 Plan Certification (DVHA Commissioner):** August 2024
- **2025 Open Enrollment:** November 1, 2024 to January 15, 2025

## Outline

- Proposed Regulation Changes for 2025
- Changes in Federal AV Calculator (AVC) for 2025
- Recommended Plan Design Changes by Metal Level

# 2025 Key Regulatory Changes

## Key Changes from 2024 Related to Benefits and Plan Designs

The Annual Limitation on Cost Sharing was released in a separate guidance letter and has been finalized for 2025. The limitation will be \$9,200 for 2025, a decrease of \$250 from the \$9,450 limit in 2024.

- Federal HDHP minimum deductible and out-of-pocket maximum (OOPM) limits are not yet released for 2025
  - The 2024 minimum single deductible and OOPM are \$1,600 and \$8,050, respectively
  - The minimum deductible typically increases \$50 every two to three years and the last increase was \$100 for the 2024 plan year. Given continued inflation we anticipate an increase of \$50 in 2025 but will have a better estimate by the end of February.
  - The OOPM increased by \$550 last year
  - The proposed plan designs assume the minimum single deductible remains at \$1,600. Should the final limit for the deductible be different, the pharmacy deductible for the HDHPs will need to be adjusted.

There are other changes in the 2025 Notice of Benefit and Payment Parameters not listed here as they do not impact plan designs as directly as the items above

# 2025 Draft Actuarial Value Calculator

## The Center for Consumer Information and Insurance Oversight (CCIIO) releases an Actuarial Value Calculator (AVC) for each plan year

- This model must be used to determine the actuarial value (AV) of a plan for purposes of determining compliance with metal level requirements
- The calculator includes inputs for various plan design features, including:
  - Deductible
  - Out-of-pocket maximums
  - Member cost sharing for 20 different service categories (emergency room, inpatient, primary care, etc.)
    - Copays and/or coinsurance
    - Whether the deductible applies
- Some plan design features are not supported by the AVC
  - If the impact of these features is considered substantial, an actuary can either modify the inputs to most closely represent the plan design or can modify the results of the AVC to account for these features. This requires an actuarial certification documenting the development of the modification.

## The resulting AV from the calculator will differ from the pricing AV used by carriers to determine premiums

- The Federal AVC is based on summarized national data whereas carriers will likely use their own experience
- Each carrier will use their own model and the methodology may differ from that used in the AVC
- As noted above, not all service categories are represented in the AVC

# 2025 Draft Actuarial Value Calculator

The 2025 Federal Actuarial Value Calculator is in draft format. Any changes in the final version could impact the actuarial values and the resulting plan designs.

## Underlying Data Updated

- 2024 AVC was based on 2018 large group and small group data (non-EDGE)
- Updated dataset is 2021 EDGE data, both individual and small group
- Trended from 2021 to 2025
- 2024 to 2025 trend is slightly higher than prior years at 6.4% for medical cost trend and 9.2% for drug cost trend
- Outlier members ceiling is lower (99.5% vs 99.9%)

## Large Changes Due to Data Updates

- Silver and Bronze allowed costs decreased by over 4%
  - This decreases AVs for these plans, which reduces the magnitude of changes required, or could require plan benefit increases in some cases
- PCP vs Specialist distribution changed notably
- Large shifts in the distribution of allowed costs by category of service

## Estimated Premium Impact – Notes and Caveats

“Estimated Premium Impact”: The premium changes shown on subsequent slides are meant to illustrate the trade-off between premium increases and cost sharing increases. The actual premium change will be based on each carrier’s model and experience and may differ significantly from what is shown

- The premium change is based on the Wakely benefit model and was not adjusted for any benefit designs that are not accommodated in the model (for example, the embedded aggregate drug OOPM on the HDHPs). The actuarial values are based on high-level estimates of allowed claims and adjusted for each metal level by induced utilization factors. These estimates should be used as high-level estimates and an additional reference point, but not as the actual expected premium changes.
- The dollar amount changes are calculated using a straight average of 2024 individual market, individual contract issuer premiums by plan and are likely overstated slightly due to not adjusting for fixed non-benefit expenses.

# 2025 Estimated Actuarial Value

## Impact on the Actuarial Value of Vermont Standard Plan Designs

Changes are required to the Silver Deductible and Bronze with and without Pharmacy Limit plans due to the Federal OOPM decrease

- Broader changes are not required for base metal plans due to the impacts of the 2025 AVC model updates
- Even if changes are not required, changes may still be desired to avoid the AV increase being passed on as a premium increase
- Changes are required for several of Silver CSR plan designs

The acceptable AV ranges reflect the proposed changes in the 2025 draft NBPP and have been adjusted for the following design features unsupported by the Federal AVC and for which a specific adjustment is not made

- Waiving the deductible for preventive prescription drugs: 0.5% “cushion” on HDHPs
- Limiting Out-of-Pocket Expenses for Insulin: 0.1% “cushion” on Bronze plans
- 3 free MHSA Visits on Non-HDHP Plans: 1.001 multiplicative factor for Silver Deductible (including 73% and 77% CSR Variants) and Bronze Deductible w/o Pharmacy Limit

# 2025 Estimated Actuarial Value

## Impact on the Actuarial Value of VT Standard Plan Designs

	Plan	Final 2024 Federal AVC	Draft 2025 Federal AVC	Acceptable Range	Out of Range
<b>Deductible Plans</b>	Platinum	90.1%	90.2%	88.0%-92.0%	No
	Gold	81.3%	81.1%	78.0%-82.0%	No
	Silver	70.7%	N/A <sup>1</sup>	70.0%-72.0%	N/A
	Bronze (with pharmacy limit)	62.0%	N/A	58.0%-64.9%	N/A
	Bronze (without pharmacy limit)	64.8%	N/A	58.0%-64.9%	N/A
<b>HDHPs</b>	Silver - Embedded OOPM	71.2%	70.7%	70.0%-71.5%	No
	Bronze - Embedded OOPM	62.9%	61.9%	58.0%-64.4%	No

1. Any plan with N/A had a 2024 OOPM greater than the 2025 \$9,200 Federal Maximum and thus could not be run through the 2025 AVC

# 2025 QHP Proposal Changes Requiring GMCB Approval

	Changes that do not Require Formal Approval
Copay	Less than or equal to \$15
Coinsurance	Less than or equal to 5 percentage points
Deductible	Less than or equal to \$200
OOPM	Less than or equal to increase in Federal OOPM limit (\$250 decrease for 2025)
Other	Modification required to meet Federal guidance

- For the recommended and alternative plan designs, any changes from the 2024 plan designs are shown in boxes and shaded in orange. **Any changes requiring approval are shaded in green.**

# 2025 QHP Proposal Summary of Plan Design Changes

Deductible Plans	
Platinum	Gold
Increase pharmacy OOPM from \$1,500 to \$1,600	Increase pharmacy MOOP from \$1,500 to \$1,600
Increase medical OOPM from \$1,500 to \$1,600	Leave medical OOPM at \$5,600
Silver	Bronze w/ Rx Limit
Decrease medical deductible from \$4,000 to \$3,500	Decrease medical OOPM from \$9,450 to \$9,200
Decrease medical OOPM from \$9,300 to \$9,200	Increase pharmacy OOPM from \$1,500 to \$1,600
Increase pharmacy OOPM from \$1,500 to \$1,600	Decrease generic Rx copay from \$20 to \$15
Decrease generic Rx copay from \$20 to \$15	
Decrease ER copay from \$500 to \$250	
Bronze w/o Rx Limit	
Decrease medical deductible from \$9,400 to \$9,200	
Decrease medical OOPM from \$9,400 to \$9,200	
Decrease generic pharmacy copy from \$30 to \$25	
HDHPs	
Silver - Embedded MOOP	Bronze - Embedded MOOP
Decrease embedded single OOPM from \$9,450 to \$9,200	Decrease embedded single OOPM from \$9,450 to \$9,200
Decrease PCP Office visit coinsurance from 15% to 10%	Decreased combined OOPM from \$7,200 to \$7,100
Decrease MH/SA Office visit coinsurance from 15% to 10%	
Leave medical OOPM at \$7,050

# 2025 QHPs – Changes for Platinum Deductible Plan

Even though the 2024 plan design is within the AV range, changes are recommended

- Keep deductible consistent after several years of increases
- Pharmacy OOPM increased to be consistent with HDHP Pharmacy OOPM, with Medical OOPM brought to the same level

# 2014 to 2024 QHPs Gold Deductible Plan

## 2025 QHPs – Changes for Gold Deductible Plan

Even though the 2024 plan design is within the AV range, changes are recommended

- Keep deductible and medical OOPM at the same level as last year after there had been several years in a row of large increases pre-2024
- Pharmacy OOPM increased to be consistent with HDHP Pharmacy OOPMs

# 2014 to 2024 QHPs Silver Deductible Plan

# 2025 QHPs – Changes for Silver Deductible Plan

## Considerations for recommended changes

- Return deductible closer to 2022 level after multiple years in a row of large increases
- Medical OOPM lowered to the Federal \$9,200 maximum
- Pharmacy OOPM increased to be consistent with HDHP Pharmacy OOPMs
- Reduce generic drug copay to encourage medication adherence with a small premium impact
- Reduce ER copay to lower cost sharing burden when emergency care is needed
- AV is not maximized to limit premium increase for non-subsidized members and to avoid having to immediately reverse any lowering of cost sharing for 2026

Estimated Premium Impact PMPM (Individual Contract)	N/A	\$13.41	\$12.97

Should the HDHP minimum deductible for 2025 not equal \$1,600, the pharmacy deductible and OOPM will be aligned with the finalized amount.

## 2025 QHPs – Changes for Silver HDHP

### Considerations for recommended changes:

- Maintain deductible and OOPM levels after previous large increases
- Lowered coinsurance for PCP and MH/SA office visits results in a small premium impact but will encourage more preventive and appropriate use of services
- Embedded OOPM reduced to Federal \$9,200 maximum level
- AV is not maximized to limit premium increase for non-subsidized members and to avoid having to immediately reverse any lowering of cost sharing for 2026

# 2025 QHPs – Changes for Bronze Deductible Plan, without Pharmacy Limit

## Considerations for recommended changes:

- Reduce generic drug copay to encourage medication adherence with a small premium impact
- Bring combined OOPM and deductible down to new Federal \$9,200 maximum level
- Balanced priorities of stabilizing cost-share increases with anticipated premium impact

Should the HDHP minimum deductible for 2025 not equal \$1,600, the pharmacy deductible and OOPM will be aligned with the finalized amount

## 2025 QHPs – Changes for Bronze HDHP

### Considerations for recommended changes:

- Provide a small reduction in the Medical OOPM to reduce member cost sharing
- Embedded OOPM reduced to Federal maximum level
- Balanced priorities of stabilizing cost-share increases with anticipated premium impact

# 2025 QHP Proposal Summary of Plan Design Changes

Deductible Plans	
Platinum	Gold
Increase pharmacy OOPM from \$1,500 to \$1,600	Increase pharmacy MOOP from \$1,500 to \$1,600
Increase medical OOPM from \$1,500 to \$1,600	Leave medical OOPM at \$5,600
Silver	Bronze w/ Rx Limit
Decrease medical deductible from \$4,000 to \$3,500	Decrease medical OOPM from \$9,450 to \$9,200
Decrease medical OOPM from \$9,300 to \$9,200	Increase pharmacy OOPM from \$1,500 to \$1,600
Increase pharmacy OOPM from \$1,500 to \$1,600	Decrease generic Rx copay from \$20 to \$15
Decrease generic Rx copay from \$20 to \$15	
Decrease ER copay from \$500 to \$250	
Bronze w/o Rx Limit	
Decrease medical deductible from \$9,400 to \$9,200	
Decrease medical OOPM from \$9,400 to \$9,200	
Decrease generic pharmacy copy from \$30 to \$25	
HDHPs	
Silver - Embedded MOOP	Bronze - Embedded MOOP
Decrease embedded single OOPM from \$9,450 to \$9,200	Decrease embedded single OOPM from \$9,450 to \$9,200
Decrease PCP Office visit coinsurance from 15% to 10%	Decreased combined OOPM from \$7,200 to \$7,100
Decrease MH/SA Office visit coinsurance from 15% to 10%	
Leave medical OOPM at \$7,050

Distribution to such parties should be made in its entirety. This report cannot be distributed to or relied on by any third party without the prior written permission of Wakely.

**Risks and Uncertainties.** The assumptions and resulting estimates included in this report and produced by the model are inherently uncertain. Users of the results should be qualified to use it and understand the results and the inherent uncertainty. Actual results may vary, potentially materially, from our estimates. Wakely does not warrant or guarantee that actual experience will tie to the AV estimated for the placement of plan designs into tiers. The developed actuarial values are for the purposes of classifying plan designs of similar value and do not represent the expected actuarial value of a plan or pricing AV used to determine premium rates. Actual AVs will vary based on a plan's specific population, utilization, unit cost, and other variables.

**Conflict of Interest.** Wakely provides actuarial services to a variety of clients throughout the health industry. Our clients include commercial, Medicare, and Medicaid health plans, the Federal government and state governments, medical providers, and other entities that operate in the domestic and international health insurance markets. Wakely has implemented various internal practices to reduce or eliminate conflict of interest risk in serving our various clients. Except as noted here, the responsible actuaries are financially independent and free from conflict concerning all matters related to performing the actuarial services underlying this analysis. In addition, Wakely is organizationally and financially independent to the state of Vermont.

**Data and Reliance.** We have relied on others for data and information used in the actuarial value adjustments. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. If the underlying information is incomplete or inaccurate, our estimates may be impacted, potentially significantly. Below is a list of data and assumptions provided by others and assumptions required by law.

- Draft 2025 Federal AVC Model was relied on for the original AV. While reasonability tests have shown there are some assumptions and methodologies that are not consistent with expectations, the AVC was developed for plan classification and not pricing. Thus, the model is being used as such and we make no warranties for the accuracy of the AVs that result from the AVC.
- 2019 VHCURES data supplied by the state was used in the development of the HDHP model.

**Subsequent Events.** Subsequent events to the date of this report that could impact the plan designs presented include, but are not limited to:

1. The 2025 Notice of Benefit and Payment Parameters (NBPP) is still in draft form. Should there be regulation changes from the draft to final version of the NBPP, the plan designs presented here may need to change to maintain compliance with the new regulations.
2. The Federal HDHP minimum deductible and Maximum Out of Pocket (OOPM) limits are not yet released for 2025. The 2024 minimum deductible and OOPM are \$1,600 and \$8,050, respectively. The plan designs presented may need to change once the final 2025 HDHP limits are released.
3. Other changes to regulations passed subsequent to this report.

**Contents of Actuarial Report.** This document and the supporting exhibits/files constitute the entirety of actuarial report and supersede any previous communications on the project.

**Deviations from ASOPS.** Wakely completed the analysis using sound actuarial practice. To the best of my knowledge, the report and methods used in the analysis are in compliance with the appropriate Actuarial Standards of Practice (ASOP) with no known deviations.
