Utilization

The Utilization table is a subset of the Appendix II Bridges Table "Utilization" category. The purpose of the Utilization table is to identify major categories of services that are changing. Using Gross Revenues as a measure of estimated growth, identify the major categories of services that are changing.

Category of Service	Total increase in Gross Revenues (%)	Total increase in Gross Revenues (\$)
FY 2021 Approved Budget		
FY 2022 Proposed Budget	\$0	\$0

Inflation

Identify key categories of operating expense inflation and provide the estimated inflation factor. This is not an assessment of overall growth of the category (i.e.-does not need to tie to the P&L). It should focus on price effects only (not utilization growth or new hires). Please follow the prompted categories below. Use the 'Other' lines to capture line items not listed that cover 5% or more of the budget, and then one as a "catch all" category so the entire operating expense budget is covered (i.e. Category % of Operating Expense Budget is 100%). Please explain inflation assumptions in the comment column.

Expense Category	Estimated Inflation				Comment
	% Increase	\$ Increase	Category % of Operating Expense Budget	Weighted Average	
<i>Example: Wages/Compensation- Medical Staff</i>	2%	\$ 500,000.00	60%	1.2%	<i>This is inflation price effect only, does not account for new hires (volume).</i>
Wages/Compensation - Medical Staff				0.0%	
Wages/Compensation - Non-Medical Staff				0.0%	
Drugs				0.0%	
Medical Supplies				0.0%	
Non-Medical Supplies				0.0%	
Other (Please Specify)				0.0%	
Other (Please Specify)				0.0%	
Other (Please Specify)				0.0%	
Total	%	\$ -	%	%	

*should be 100%
