

Fiscal Year 2020 Vermont Hospital Budget Board Deliberations

September 4, 2019

GMCB Health System Finance Team

Deliberation & Public Comment

September 4th, Review of

- Compliant Hospitals
- Provider transfers and accounting adjustments
- Non-Compliant Hospitals
- The University of Vermont Health Network

Week of 9/9, Discuss and vote

Public Comment: August 28, 2019 through September 3, 2019 end of business, the Board is accepting public comment regarding the FY 2020 Hospital Budgets. The Board will potentially begin voting on September 4, 2019 regarding hospital budgets, and all the decisions will be made by September 15, 2019. In order for your comments to be considered before votes are made, please submit them before EOB September 3, 2019. This being said, the Board is always accepting public comment and reading them as they are received.

<https://gmcboard.vermont.gov/board/comment>

FY20 Budget Resubmissions and Updates

North Country

- Original submission 1.8% NPR/FPP increase
- Resubmission 3.4% NPR/FPP increase
 - North Country identified accounting errors impacting FY19. Gross Revenues were overstated by \$638,225 due to double counting swing bed revenue in both inpatient revenue and swing bed revenue which flowed through to NPR. The original FY20 budget did not include capitation and incentive income. North Country resubmitted their budget to include \$644,200 in capitation and incentive income, increasing their FY20 NPR/FPP request from \$82,979,049 to \$83,623,249.

Northwestern

- Updated FY19 Projections for NPR and Operating Margins along with updated FY20 budget Operating Margins
 - Reductions to NPR/FPP and Days Cash on Hand due to decreased utilization and increased expenses associated with upgraded electronic health records system. Projections changed from \$110,438,452 to \$108,246,154 for NPR and a loss of \$4,730,884 to loss of \$6,765,758 in Operating Margins. These projections have also affected their FY20 budget Operating Margins from a gain of \$1,274,415 to a loss of \$248,287 with no change in NPR.

FY20 Budget Resubmissions and Updates

Central Vermont Medical Center

- Updated FY19 Projections for NPR/FPP and Operating Margin
 - Reductions to NPR/FPP due to decreased NPR collection rates and FPPs, and increased expenses associated with high inpatient census, travelers, pharmaceuticals, and bad debt. Projections changed from \$209,649,672 to \$205,689,884 for NPR/FPP and from a gain of \$678,464 to a loss of **\$4,281,324** in Operating Margin.
- Updated UVMHN FY19 ACO Accounting Adjustments for FY20 NPR/FPP growth consideration, accounting for fiscal year versus calendar year
 - CVMC - changed from \$2,325,600 to \$1,806,998
 - UVMHC – changed from \$8,423,327 to \$6,369,722
 - PMC – no change

Staff Considerations

GMCB staff recommend considering the following:

- FY19 operating performance
 - Reasonableness of projection considering quarterly performance
- Hospital's overall financial health, including operating margin and key financial indicators
- Hospital's capital and infrastructure needs
- Electronic Health Record (EHR) conversions
- Participation in the All-Payer Model
- Impact of change in charge on commercial rate payers
- Provider transfer and accounting adjustments and whether request have been adequately justified
- Budget guidance maximum NPR/FPP growth rates and whether request have been adequately justified
- Budget guidance enforcement policy requiring review of hospitals whose year-end NPR/FPP exceeds budget by 1.0%.
- Hospital-specific risks and opportunities

Staff Considerations

- Additional Topics:
 - Cost savings initiatives
 - Delivery system reform
 - Leadership turnover
 - Workforce, specifically travelers
 - Utilization
 - Other revenue
 - Medicare Cost Report settlements
