

## OneCare Vermont

May 16, 2024

Dear Green Mountain Care Board and Office of the Health Care Advocate,

Under Rule 5.403(b), an ACO wishing to bear risk must propose a risk cap, supported in part by a full risk mitigation plan. OneCare Vermont Accountable Care Organization, LLC (“OneCare”) desires that the Green Mountain Care Board (“GMCB”) consider and approve its risk mitigation plan in advance of the GMCB’s review of OneCare’s FY25 budget and, by this letter, formally requests such advanced review and approval. OneCare is prepared to submit its risk mitigation plan materials to the GMCB (with copy to the HCA) in preparation for, and to present its plan at, the GMCB meeting to be held on June 12, 2024.

We are happy to discuss this request with GMCB staff in advance so that any barriers can be removed and so that the process proceeds in a timely manner. Please reach out to [OneCareGMCB@onecarevt.org](mailto:OneCareGMCB@onecarevt.org) with any concerns about this request or additional information needed.

Best Regards,

Abe Berman  
Chief Executive Officer, OneCare Vermont
