**Re: Hospital Reporting Requirement #11 Net Revenue & Public Payer Reimbursement**

Dear Ms. Berube,

This letter serves as a response to the question posed regarding an analysis that reflects a reduction in net revenue needs from non-Medicaid payers equal to any anticipated increase in Medicaid, Medicare, or another public health care program reimbursements, and to any reduction in bad debt or charity care due to an increase in the number of insured individuals as specified in 18 V.S.A. § 9456(b)(8) and (b)(9). As there are no reductions in net revenue needs from non-Medicaid payers, we believe the analysis is not applicable to MAHHC at this time.
