Subject: Extension Request: ACO Performance and Benchmarking Results

Dear Green Mountain Care Board and Health Care Advocate Policy Teams:

Per Amendment #1 of FY24 Accountable Care Organization Budget Order Condition 1, OneCare must submit an updated benchmarking report inclusive of new statistical significance analysis to the GMCB by September 30, 2024. The GMCB approved an extension of the due date to November 22, 2024, however, due to the national multi-year scope of the project and slower than expected data availability from CMS, OneCare subsequently requested a further extension of the due date in its memos of October 22 and October 31, 2024. Following conversations with GMCB staff and its vendor, OneCare would like to provide an update and amend its extension request as follows.

Due to ongoing delays, the vendor is still waiting for approximately 10% of the data from CMS. In an effort to provide the benchmarking information to the GMCB as soon as possible, OneCare proposes submitting a preliminary version of the report to the GMCB on December 3, 2024. The preliminary version will exclude any data not yet received by the vendor as well as the statistical significance analysis, but is expected to provide sufficient analysis to inform the GMCB. The final version of the report including all data and statistical significance analysis would be submitted to the GMCB by December 20, 2024. Please note that if the report is available sooner, we will submit it timely.

Thank you for your consideration. Please let us know if you have any questions.
