Diagnostic imaging

Top 5 procedures

The top five referred imaging procedures during the requested time period of February and March 2024 for outpatient exams are as follows:

MG Mammography Screening (459)

US Pelvic w/TVG (90)

CT LDCT Screen (80)

NM Myocardial Lexiscan (76)

U/S Abd LTD (64)

We do not schedule x-ray exams, it is up to the patient to arrive for imaging so there is no lag data.

Protocol is that all orders for the above once received , the office reaches out to the patients within three business days to schedule.
