Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer lines 3b and 3c below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? <i>If "Yes," answer line 10b below.</i>		
b Did the organization have any excess business holdings in the tax year? <i>(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)</i>		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described in lines 11b and 11c below, the governing body of a supported organization?		
11a		
b A family member of a person described in line 11a above?		
11b		
c A 35% controlled entity of a person described in line 11a or 11b above? <i>If "Yes" to line 11a, 11b, or 11c, provide detail in Part VI.</i>		
11c		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the governing body, members of the governing body, officers acting in their official capacity, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's officers, directors, or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove officers, directors, or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
1		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		
2		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		
1		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
1		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
2		
3 By reason of the relationship described in line 2, above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		
3		

Section E. Type III Functionally Integrated Supporting Organizations

1 Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (see instructions).

Northwestern Medical Center:

Part V, Section B, Line 5: As part of our 2018/19 (FY'19) Community Health Needs Assessment, NMC gathered input in a variety of ways including interviews with physicians, providers, and community partners; perspectives from staff and volunteers; discussions with the Incorporators from throughout our service area; patient satisfaction insights; and utilization trend analysis. Significant input, perspective, and prioritization were received through a local group of experts who were asked to validate the direction and findings of the assessment and to establish priority among various identified issues. The composition of this group of community members aligns with the Federal regulations for involvement of community leaders with specified skills or representing specified constituencies and allows for them to use their connections to their neighbors and clientele and insights there in to assist in refining and prioritizing the community health needs.

Northwestern Medical Center:

Part V, Section B, Line 7d: In addition to making the Community Health Needs Assessment widely available via the hospital website and in response to requests, Northwestern Medical Center provided overviews of the Community Health Needs Assessment to members of the community through presentations at groups such as the NMC Incorporators (150 local members who elect the hospital Board); the Boards of Directors of Northwestern Medical Center, Franklin County Home Health Agency; Northwestern Counseling & Support Services, NOTCH (Northern Tier Centers for Health

If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2," "B, 3," etc.) and name of hospital facility.

Federally Qualified Health Centers); and the St. Albans Rotary comprised of business and civic leaders from across the region; and via Health Beat, NMC's public access television show. The priorities of the Community Health Needs Assessment are frequently referenced in other hospital documents, plans, publications, and presentations as we work to integrate these findings into our efforts to care for our community.

Northwestern Medical Center:

Part V, Section B, Line 11: NMC is addressing the significant needs identified in its most recently conducted CHNA through a variety of initiatives including: the RiseVT community campaign to embrace healthy lifestyles; the modernization of the NMC Emergency Department; the expansion of access to and integration of addiction services; continuation and strengthening of partnerships for local mental health care and advocacy for proper inpatient mental health care infrastructure at the state level; continued emphasis on tobacco prevention and cessation with expansion to address vaping; support of community-based efforts related to suicide (including the Afterglow Awareness & Fundraising event for Northwestern Counseling & Support Services); support of community-based efforts related to sexual and domestic abuse (including the Laurie's House and Voices Against Violence); support of community-based efforts related to food insecurity (including Healthy Roots, Northwest Family Foods, and Martha's Kitchen); and other strategies aligning with awareness, education, resource allocation, and collaboration. All of the top priorities identified are being addressed in some fashion by the hospital.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. NMC's most recent CHNA also addressed additional items that impact the community but were not ranked as top priorities, including: Prevention & Wellness Education, Access and Affordability of Care, Cancer, Physical Activity, Dental Care, Alcohol Use, Chronic Pain Management, ACES (Adverse Childhood Experiences) & Trauma, Diabetes, Housing, Transportation, Heart Disease, Parent Education/Support, Accidents, Stroke, Health Equity, Women's Health, Alzheimer's, and Kidney Disease. The prevention messaging of NMC's RiseVT community campaign to embrace healthy lifestyles extends to many of these. Many of these are also addressed through NMC's Primary Care, Pediatrics, and other medical specialty practices. NMC's support of the United Way of Northwest Vermont and other important community partners also helps address these important but not top priority items. NMC's actions in these areas are tracked through normal operations rather than through the CHNA action plan which is focused on the top priorities. The hospital does not intend to develop a CHNA implementation plan for these lower ranked needs for the following reasons:

1. Actions required are beyond the mission of NMC;
2. NMC can be more effective applying its resources to higher priority needs;
3. The Hospital does not possess the expertise necessary for substantive positive improvement;
4. Actions contemplated for implementation fall more appropriately to the responsibility of others;

5. Other than providing encouragement, implementation efforts for some needs require appropriate actions by individuals modifying their personal habits rather than a response by an organization or the Hospital; and

6. The best use of NMC resources is to focus on resolving or improving higher priority needs rather than attempting to respond to everything with small, perhaps ineffective, efforts.

Part VI Supplemental Information

Provide the following information.

- 1 **Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 **Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 **Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 3c:

Determining eligibility for free care and/or discounted care is not solely determined by Federal Poverty Guidelines (FPG). Other considerations, such as net worth, other financial obligations, and outstanding medical bills are reviewed in addition to income.

Part I, Line 7g:

Subsidized health services includes the Medicare shortfall from physician practices that are not included in the Hospital's cost reporting reflected on Part III, Line 7.

Part III, Line 4:

See pages 7, 9-13, and 17-18 of the attached audited financial statements.

Part III, Line 8:

The cost was determined using the cost to charge ratio.

The Medicare shortfall of \$15,705,404 reported on line 7 of Part III, does

Part VI Supplemental Information (Continuation)

not represent all Medicare services provided by the Hospital, as required by IRS instructions. When taking all Medicare services into account, the Hospital calculated a different Medicare shortfall using an internal costing methodology.

Part III, Line 9b:

During the collection process, financial assistance, a payment plan or a discount may be offered to the patient, if appropriate, and in accordance with established hospital policy.

Part VI, Line 2:

In alignment with the Federal mandate, Northwestern Medical Center conducted a comprehensive Community Health Needs Assessment in 2019. This document was formally approved by the Hospital's Board of Directors at their May 1, 2019 meeting, placing it in the Hospital's 2019 Fiscal Year. This document replaces the previous Community Health Needs Assessment which was approved in the Hospital's 2016 Fiscal Year.

Seven top priorities were identified: Mental Health; Substance Abuse; Obesity; Suicide; Domestic/Sexual Assault; Food Insecurities; and Smoking & Vaping - and action plans have been created to help address each of these priorities. The current (and previous) assessment is available free of charge on the Hospital website and the Hospital's Community Relations Office is available to provide free printed copies as requested.

Part VI, Line 3:

The Hospital uses a variety of methods of communication to inform and educate patients about its financial assistance program. For example,

Part VI Supplemental Information (Continuation)

information related to financial assistance and charity care is available on the Hospital's website and patient portal, included on the back of patient statements, posted on signs at registration areas, and patients may speak on the phone with a collection specialist. The Hospital's financial assistance program is also widely publicized within the community, including published information regularly placed in the local newspaper and information brochures displayed at local United Way and Department of Health offices.

Part VI, Line 4:

The Hospital serves the greater Franklin and Grand Isle counties in northwestern Vermont. The service area consists of approximately 56,000 people and the area is primarily rural and agricultural in nature with some light industry.

Part VI, Line 5:

The Hospital maintains an open medical staff and a community based Board of Directors. The Hospital's Board of Directors is elected by the Hospital's Board of Incorporators, which consists of approximately 150 local residents. The Hospital created and funds a program known as The Center for Health and Wellness, which is committed to a collaborative approach to community health improvement.

CONSOLIDATED FINANCIAL STATEMENTS
with
SUPPLEMENTARY INFORMATION

September 30, 2021 and 2020
With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Northwestern Medical Center, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Northwestern Medical Center, Inc. and Subsidiaries, which comprise the consolidated balance sheets as of September 30, 2021 and 2020, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Northwestern Medical Center, Inc. and Subsidiaries as of September 30, 2021 and 2020, and the results of their operations, changes in their net assets and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Matters

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, in 2021, Northwestern Medical Center, Inc. and Subsidiaries adopted Financial Accounting Standards Board Accounting Standards Update No. 2014-09, *Revenues from Contracts with Customers*, and related guidance. Our opinion is not modified with respect to this matter.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information contained in Schedule 1 is presented for purposes of additional analysis, rather than to present the financial position of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

Organization

Northwestern Medical Center, Inc. (Hospital or NMC) is a 70-bed, not-for-profit hospital in St. Albans, Vermont. The Hospital is the sole-owning member of Northwestern Occupational Health, LLC (NOH), a for-profit entity that provides medical rehabilitative and urgent care services. In April 2018, NOH's operations were transferred to NMC. As a result, there was minimal activity related to NOH in the 2021 and 2020 statement of operations. NOH anticipates transferring all assets and liabilities to the Hospital in 2022. The consolidated financial statements also include the accounts of the Northwestern Medical Center Auxiliary, Inc. (Auxiliary) which is organized specifically for the promotion and support of the Hospital. The Hospital is the sole-owning member of the Auxiliary. Auxiliary volunteers provide the Hospital approximately 10,200 hours of support annually, as well as financial support.

The Hospital and Auxiliary are tax-exempt corporations pursuant to Section 501(c)(3) of the Internal Revenue Code (Code) and, as such, are not subject to certain income and property taxes. As a single member LLC, NOH is considered a disregarded tax entity and its results of operations are consolidated with the Hospital.

1. Summary of Significant Accounting Policies

Newly Adopted Accounting Pronouncement

In 2021, the Hospital adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, and related guidance, which supersedes accounting standards that previously existed under U.S. generally accepted accounting principles (U.S. GAAP) and provides a single revenue model to address revenue recognition to be applied by all companies. Under the new standard, companies recognize revenue when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. ASU No. 2014-09 also requires companies to disclose additional information, including the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. This ASU was adopted by the Hospital during the year ended September 30, 2021 and elected the modified retrospective method; therefore, the consolidated financial statements and related notes have been presented accordingly.

Principles of Consolidation

The consolidated financial statements include the accounts of the Hospital and its subsidiaries, NOH and Auxiliary (collectively, Organization). All significant intercompany transactions have been eliminated in consolidation.

Basis of Presentation

Net assets and revenues, expenses, and gains are classified based on the existence or absence of donor-imposed restrictions in accordance with FASB Accounting Standards Codification (ASC) Topic 958, *Not-For-Profit Entities*, as described below. Under FASB ASC Topic 958 and FASB ASC Topic 954, *Health Care Entities*, all not-for-profit healthcare organizations are required to provide a balance sheet, a statement of operations, a statement of changes in net assets, and a statement of cash flows. FASB ASC Topic 954 requires reporting amounts for an organization's total assets, liabilities, and net assets in a balance sheet; reporting the change in an organization's net assets in statements of operations and changes in net assets; and reporting the change in its cash and cash equivalents in a statement of cash flows.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Hospital. These net assets may be used at the discretion of the Hospital's management and the Board of Directors (Board).

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Hospital or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the consolidated statements of operations and changes in net assets.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash equivalents include money market funds with a maturity of three months or less when purchased. The Hospital maintains its cash in deposit accounts which, at times, may exceed federal depository insurance limits. Management believes credit risk related to these investments is minimal. The Hospital has not experienced any losses in such accounts.

Revenue Recognition and Accounts Receivable

Patient service revenue is reported at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Hospital bills the patients and third-party payors several days after the services are performed or the patient is discharged from the hospital. Revenue is recognized as performance obligations are satisfied.

The Hospital has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Hospital's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payor pays for that service will be one year or less. However, the Hospital does in certain instances enter into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in hospitals receiving inpatient acute care services or patients receiving services in outpatient centers. The Hospital measures the performance obligation from admission into the hospital or the commencement of an outpatient service to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Revenue from performance obligations satisfied at a point in time is generally recognized when the goods are provided to patients and customers in a retail setting (for example, cafeteria) and the Hospital does not believe it is required to provide additional goods or services related to that sale.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Hospital has elected to apply the optional exemption provided in FASB ASC 606-10-50-14 (a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Hospital determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Hospital's policy, and implicit price concessions provided to uninsured patients. The Hospital determines its estimates of contractual adjustments and

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

discounts based on contractual agreements, its discount policies, and historical experience. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with this class of patients and records these as a direct reduction to net patient service revenue. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and changes in commercial contractual terms resulting from contract negotiations and renewals.

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to patient accounts receivable.

The Hospital has agreements with third-party reimbursing agencies that provide for payments at amounts different from its established rates. A summary of the payment arrangements with major third-party reimbursing entities follows:

Medicare

Due to its geographic location, the Hospital is deemed to be a sole community hospital. Under this designation, it is reimbursed at a prospectively-determined rate per inpatient discharge based upon its historical costs from a base period. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Outpatient services rendered to Medicare program beneficiaries are paid at prospectively-determined rates. These rates vary according to an ambulatory payment classification system that is based on clinical, diagnostic, and other factors. Final settlements have been determined for all years through September 30, 2017.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are reimbursed at acuity-based prospectively-determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are paid at prospectively-determined rates. The Hospital's Medicaid cost reports have been audited by the fiscal intermediary through September 30, 2013.

Blue Cross and Commercial

Inpatient and outpatient services rendered to Blue Cross and MVP Health Care subscribers are reimbursed at submitted charges less a discount. Physician professional fees are reimbursed on a fee schedule. The amounts paid to the Hospital are not subject to any retroactive adjustments.

AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively-determined rates per discharge, discounts from established charges and prospectively-determined daily rates.

Revenue from the Medicare and Medicaid programs accounted for approximately 25% and 9%, respectively, of the Hospital's patient revenue (net of contractual allowances and discounts) for the year ended 2021, and 30% and 8%, respectively, of the Hospital's patient revenue (net of contractual allowances and discounts) for the year ended 2020.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result of investigations by governmental agencies, various healthcare organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements. Compliance with such laws and regulations may also be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and potential exclusion from the related programs. There can be no assurance that regulatory authorities will not challenge the Hospital's compliance with these laws and regulations, and it is not possible to determine the impact (if any) such claims or penalties would have upon the Hospital. In addition, the contracts the Hospital has with commercial and other payors also provide for retroactive audit and review of claims.

Settlements with third-party payors for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Hospital's historical settlement activity, including a determination it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews, and investigations. Adjustments arising from changes in transaction price in 2021 and 2020 increased net patient service revenue by approximately \$4,600,000 and \$2,600,000, respectively.

Consistent with the Hospital's mission, care is provided to patients regardless of their ability to pay. Therefore, the Hospital has determined it has provided implicit price concessions to uninsured patients and other uninsured balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represents the difference between amounts billed to patients and the amounts the Hospital expects to collect based on its collection history with those patients.

Patients who meet the Hospital's criteria for charity care are provided care without charge or at amounts less than established rates. Such amounts determined to qualify as charity care are not reported as revenue. The criteria for charity care consider family income, net worth, and extent of financial obligations, including healthcare costs.

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The net cost of charity care provided was \$1,158,843 in 2021 and \$702,205 in 2020. The total cost estimate is based on the Hospital's cost accounting system. The cost accounting system derives a cost estimate by allocating expense at a detail charge level.

As part of its mission, the Hospital underwrites a number of healthcare related programs that may not be otherwise available to the community. These activities directly align with the Community Health Needs Assessment, targeting the priorities both directly and indirectly.

Some examples of healthcare related programs are described below:

- The Healthy Hearts community health fair focuses on improved cardiovascular health with free screenings, educational booths, opportunities to try fitness activities, engaging kids' activities, healthy snacks, and opportunities to discuss screening results and health questions with providers.
- NMC's Lifestyle Medicine Department offers various community wellness and prevention programming, including media pieces, special events, smoking cessation activities, public lectures, and health related support groups.
- NMC invests staff time and production costs to dedicate space in hospital publications, paid advertising, proactive traditional media, and social media to raise awareness of health issues, prevention efforts, wellness activities, and supportive offerings put forth by the Hospital as well as community providers, who often lack the staff or resources to fully communicate these important messages to the target audiences in the community.
- NMC underwrites and voluntarily participates in local United Way programs and outreach with a focus on health, education, and income, all of which contribute to improved quality of life and overall community health.

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Hospital also provides services to uninsured patients and offers those uninsured patients a discount, either by policy or law, from standard charges. The Hospital estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions based on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. Subsequent changes that are determined to be the result of an adverse change in the patient's ability to pay are recorded as bad debt expense. Bad debt expense for the years ended September 30, 2021 and 2020 was not significant.

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The Hospital has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the following factors:

- Payors (for example, Medicare, Medicaid, managed care or other insurance, patient) have different reimbursement and payment methodologies
- Length of the patient's service or episode of care
- Method of reimbursement (fee for service or fixed prospective payment)
- Hospital's program that provided the service

For the years ended September 30, 2021 and 2020, the Hospital determined revenue recognized from goods and services that transfer to the customer at a point in time is not material to the consolidated financial statements.

Short-Term Investments, Assets Limited as to Use, and Investments

Short-term investments include money market funds, certificates of deposit and highly liquid debt instruments with a maturity of one year or less when purchased. These funds represent excess cash from operations that are available for day-to-day operational needs, as required.

Assets limited as to use include donor-restricted investments, funds collateralizing property financed by bank loans, bond proceeds to be used for capital projects, deferred compensation plan assets and designated assets set aside by the Board for future capital improvements, over which the Board retains control and which it may, at its discretion, use for other purposes.

Investments represent donations without donor restrictions received over the years, as well as excess funds generated from the operations of the Hospital. These funds, collectively, may only be used upon Board approval. While these funds are identified and referred to as the Hospital's endowment, they are not endowment funds as defined by the Uniform Prudent Management of Institutional Funds Act (UPMIFA) or U.S. GAAP and are not subject to any donor limitations or guidelines with respect to withdrawals.

Investments also include the non-current portion of short-term investments.

Investments in equity securities are reported at readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. The Hospital has adopted FASB ASC Topic 825, *Financial Instruments*, and has elected the fair value option relative to its investments which consolidates all investment performance activity within the excess (deficiency) of revenues, gains and other support over expenses and losses in the consolidated statements of operations to simplify the presentation of these amounts.

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

Investment income or loss on investments, including realized gains and losses on investments, unrealized gains and losses on investments, and interest and dividends is included in nonoperating gains (losses), unless the income or loss is restricted by donor or law.

Employee Fringe Benefits

The Hospital has an "earned time" plan to provide certain fringe benefits for its employees; however, certain employees are not eligible for this plan. Under this plan, each employee "earns" paid leave for each payroll period. Accumulated hours may be used for vacations, holidays, or illnesses. Hours earned, but not used, vest with the employees up to established limits. The Hospital accrues the cost of these benefits as they are earned.

Property and Equipment

Property and equipment acquisitions are recorded at cost or, if contributed, at fair market value determined at the date of donation. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method.

Gifts of long-lived assets such as land, buildings, or equipment are reported as net assets without donor restrictions, and are excluded from the deficiency of revenues, gains, and other support over expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

The Hospital reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

Coronavirus Aid, Relief, and Economic Security Act (CARES Act) Provider Relief Stimulus Funds

The CARES Act provided funds to eligible healthcare providers to prevent, prepare for and respond to the Coronavirus Disease (COVID-19). The funds were appropriated to reimburse healthcare providers for healthcare related expenses or lost revenues that are attributable to COVID-19. The CARES Act provides the U.S. Department of Health and Human Services (HHS) with discretion to operate the program and determine the reporting requirements. During 2020, the Hospital received \$12,200,000 of HHS Provider Relief Stimulus Funds (Funds) and attested to the receipt of the Funds and agreement with the associated terms and conditions. The Hospital has chosen to follow the conditional contribution model for the Funds. At September 30, 2021 and 2020, the Hospital recognized \$3,653,507 and \$8,546,493, respectively, of the Funds in other

operating revenue in the consolidated statements of operations. Management believes the conditions on which the Funds depend were substantially met. Management believes the position taken is a reasonable interpretation of the rules currently available. Due to the complexity of the reporting requirements and the continued issuance of clarifying guidance, there is at least a reasonable possibility the amount of income recognized related to the lost revenues and qualifying expenses may change by a material amount. Any difference between amounts previously estimated and amounts subsequently determined to be recoverable or payable will be included in income in the year that such amounts become known.

In response to the COVID-19 pandemic, the Centers for Medicare and Medicaid Services (CMS) and Blue Cross Blue Shield of Vermont (Blue Cross) made available an accelerated and advance payment program to providers. The Hospital received \$5,875,196 of accelerated advanced payments during 2020. At September 30, 2021, the balance of accelerated advanced payments was \$154,261. CMS recoups payment from claims payments one year from the date the respective advances were made to the Hospital. Blue Cross began recouping payment from claims payments starting in October 2020 and as of September 30, 2021, all accelerated payments had been recouped by Blue Cross.

Interest Rate Swaps

The Hospital uses interest rate swap contracts to mitigate the cash flow exposure of interest rate movements on variable-rate debt. The Hospital has adopted FASB ASC Topic 815, *Derivatives and Hedging*, to account for its interest rate swap contracts. The interest rate swaps do not qualify as cash flow hedges. Gains and losses on derivative financial instruments that do not qualify as hedges are required to be included in the performance indicator. As a result, the unrealized gains and losses on the interest rate swaps for 2021 and 2020, respectively, have been included in the excess (deficiency) of revenues, gains, and other support over expenses and losses.

Nonoperating Gains (Losses)

Activities other than those in connection with providing healthcare services are considered to be nonoperating. Nonoperating gains and losses consist primarily of income and gains and losses on invested funds, contributions without donor restrictions, and unrealized gains and (losses) on interest rate swaps.

Excess (Deficiency) of Revenues, Gains and Other Support Over Expenses and Losses

The consolidated statement of operations includes excess (deficiency) of revenues, gains and other support over expenses and losses. Changes in net assets without donor restrictions which are excluded from this measure, consistent with industry practice, include permanent transfers of assets and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets).

AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received and the conditions are met. The gifts are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, the net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statements of operations as net assets released from restriction. Donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions without donor restrictions in the accompanying consolidated financial statements.

Subsequent Events

For purposes of the preparation of these consolidated financial statements in conformity with U.S. GAAP, the Organization has considered transactions of events occurring through January 6, 2022, the date the consolidated financial statements were available for issuance.

On January 1, 2022, the Organization transitioned ownership of their St. Albans and Enosburg pediatric offices to Primary Care Health Partners.

2. Availability and Liquidity of Financial Assets

The Organization maintains a general operating account that has average days (based on normal expenditures) cash and cash equivalents on hand of 81 and 98 at September 30, 2021 and 2020, respectively. In addition, the Organization has working capital of \$35,740,983 and \$26,682,588 at September 30, 2021 and 2020, respectively.

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs not financed with debt, were as follows as of September 30:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 26,020,000	\$ 30,569,535
Patient accounts receivable, net	9,042,305	9,908,593
Other receivables	820,393	9,880,288
Investments	<u>62,078,638</u>	<u>37,066,560</u>
Financial assets available at year end for current use	\$ <u>97,961,336</u>	\$ <u>87,424,976</u>

At September 30, 2020, cash and cash equivalents included \$5,875,196 specifically related to third-party accelerated payments. At September 30, 2020, average days cash and cash equivalents on hand, excluding the third-party accelerated payments and HHS stimulus funds, was 68.

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The Organization has short-term and long-term investments which are available for general expenditure within one year in the normal course of operations with Board approval. Accordingly, these assets have been included in the quantitative information above. The Organization also has assets limited as to use that are designated for future capital acquisition of \$849,782 and \$17,632,862 as of September 30, 2021 and 2020, respectively, which are more fully described in Note 5, that have not been included in the quantitative information above. These assets limited as to use are not available for general expenditure within the next year; however, the amounts could be made available if necessary.

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize the investment of its available funds. The Organization reports monthly to the Finance Committee and Board the days cash on hand, estimated cost report settlements to Medicare and Medicaid and estimated settlement due to a third-party payor who pays the Organization under a Prospective Interim Payment system. The Hospital's goal is generally to maintain financial assets to meet 200 days of operating expenses.

3. Net Patient Service Revenue

Net patient service revenue consisted of the following for the years ended September 30:

	<u>2021</u>	<u>2020</u>
Gross patient service revenue		
Inpatient services	\$ 43,399,341	\$ 41,491,811
Outpatient services	<u>195,655,850</u>	<u>151,662,040</u>
	239,055,191	193,153,851
Less contractual allowances and discounts	<u>141,327,881</u>	<u>108,070,086</u>
	97,727,310	85,083,765
Less provision for bad debts	<u>-</u>	<u>(8,153,915)</u>
	\$ 97,727,310	\$ 76,929,850

Each performance obligation is separately identifiable from other promises in the customer contract. As the performance obligations are met (i.e., room, board, ancillary services, level of care), revenue is recognized based upon the allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative standalone selling price. In instances where management determines there are multiple performance obligations across multiple months, the transaction price is allocated by applying an estimated implicit and explicit rate to gross charges based on the separate performance obligations.

AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

In assessing collectibility, the Hospital has elected the portfolio approach. This portfolio approach is being used as the Hospital has a large volume of similar contracts with similar classes of customers. The Hospital reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, aggregating all of the contracts (which are at the patient level) by the particular payor or group of payors, will result in the recognition of the same amount of revenue as applying the analysis at the individual patient level.

As disclosed in Note 1 to these consolidated financial statements, the Hospital adopted ASU No. 2014-09 and related guidance for the year ended September 30, 2021, electing to use the modified retrospective method. Accordingly, amounts in the comparative period have not been restated and continue to be reported under the accounting standards in effect for that year. The impact of adoption on the consolidated statement of operations for the year ended September 30, 2021 follows:

	<u>As Reported</u>	<u>Balance Without ASC 606 Adoption</u>	<u>Effect of Change</u>
Net patient service revenue before provision for bad debts		\$ 104,988,885	
Less: Provision for bad debts		<u>7,261,575</u>

Net patient service revenue recognized for the years ended September 30, 2021 and 2020 from these major payors is as follows:

	<u>2021</u>	<u>2020</u>
Medicare and Medicaid	\$ 33,242,329	\$ 29,605,957

On May 5, 2009, the Governor of Vermont signed UPMIFA as regulation over donor-restricted endowment funds. Under UPMIFA, the amount of the original gifts is not expendable, although the value of the investments purchased may occasionally fall below that amount. UPMIFA describes “historic dollar value” as the amount that is not expendable. Income not specifically restricted by donors is reported as net assets with donor restrictions until appropriated by the Board and expended.

6. Beneficial Interest in Perpetual Trusts

The Hospital is the beneficiary of various trusts for which it is not the trustee, consisting of \$1,132,231 and \$939,407 in irrevocable perpetual trusts at September 30, 2021 and 2020, respectively. The Hospital has reflected as assets in the consolidated balance sheets, included in donor-restricted assets limited as to use, its share of the fair value of the underlying investments in the trusts. Receipts of income are included as investment income without donor restrictions when received. Receipts from the trusts were approximately \$26,400 and \$25,600 for the years ended September 30, 2021 and 2020, respectively, and were recorded in net investment (loss) income.

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

Interest Rate Swaps

The Hospital has entered into three swap agreements. During 2021 and 2020, the interest rate swap agreements did not qualify for hedge accounting.

The Hospital is required to include the fair value of the swaps in the balance sheet, and annual changes, if any, in the fair value of the swaps in the statement of operations. For example, during the Bonds' holding period, the annually calculated value of the swaps will be reported as assets if expected interest rates increase above those expected on the date the swaps were entered into (and as an unrealized gain in the statement of operations), which will generally be indicative that the net fixed rate the Hospital is paying is below market expectations of rates during the remaining term of the swap. The swaps will be reported as a liability (and as an unrealized loss in the statement of operations) if expected interest rates decrease below those expected on the date the swaps were entered into, which will generally be indicative that the net fixed rate the Hospital is paying on the swap is above market expectations of rates during the remaining term of the swap. These annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements. The Hospital retains the sole right to terminate the swap agreements should the need arise; however, such termination may result in a payment or receipt based on interest rate expectations at that time. The Hospital recorded the swaps at their liability position of \$1,319,919 and \$2,455,542 at September 30, 2021 and 2020, respectively. The interest rate swap contract disclosures are summarized as follows:

<u>Fixed Rate Paid</u>	<u>Variable Rate Received</u>	<u>Current Notional Amount</u>	<u>Fair Value as of September 30, 2021</u>	<u>Fair Value as of September 30, 2020</u>	<u>Termination Date</u>	<u>Counterparty</u>

8. Retirement Plans

The Hospital sponsors a 403(b) retirement plan for its employees. To be eligible to participate in the 403(b) plan, an employee must meet certain requirements as specified in the Plan documents. The Hospital matches 1% if the employee contributes 2% or 3% of their annual salary, and the Hospital contributes 2% if the employee contributes 4% or more of their annual salary. Total expense under the 403(b) retirement plan was \$921,783 and \$926,545 in 2021 and 2020, respectively.

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The Hospital sponsors a Money Purchase Pension Plan covering substantially all of its employees. The Hospital's contributions are determined for, and allocated to, eligible participants based on a predetermined percent of compensation paid. Individual benefits at retirement are the amounts which can be provided by the sums contributed to each participant's account. The plan, which may be terminated at any time by the Board, provides for employee vesting over a six-year period. Retirement plan expenses charged to operations were \$1,282,221 and \$1,271,343 in 2021 and 2020, respectively.

The Hospital has a nonqualified deferred compensation plan established under Section 457 of the Code. The plan permits certain management and highly compensated employees to defer portions of their compensation based on Internal Revenue Service guidelines. The Hospital has cumulatively recorded \$4,684,496 and \$3,724,033 at September 30, 2021 and 2020, respectively, related to this plan. The related investments are segregated in a separate account and reported in the balance sheet along with the Hospital's related liability to the employees.

9. Commitments and Contingencies

Operating Leases

The Hospital has operating leases for medical care space, and has various leases for medical and office equipment with expiration dates through 2025. Certain of these leases have renewal options and contain an annual Consumer Price Index increase provision. The Hospital's future minimum payments under these leases are as follows:

Years ending September 30,	
2022	\$ 266,000
2023	266,000
2024	266,000
2025	266,000
2026	<u>266,000</u>
	<u>\$ 1,330,000</u>

Rental expense for the years ended September 30, 2021 and 2020 was \$799,238 and \$800,574, respectively.

Professional Liability Insurance and Litigation

The Hospital carries malpractice insurance coverage under a claims-made policy. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured. The Hospital intends to renew its coverage on a claims-made basis and has no reason to believe that it may be prevented from renewing such coverage.

AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The Hospital is subject to complaints, claims and litigation due to potential claims which arise in the normal course of business. U.S. GAAP require the Hospital to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. Amounts accrued under this provision are included in other current assets and other accrued expenses in the consolidated balance sheets. The Hospital at various times during the year may be involved in other legal proceedings of a nature considered normal to its business. The Hospital has evaluated its exposure to losses arising from identifiable potential claims and has properly accounted for them in the consolidated balance sheets for the years ended September 30, 2021 and September 30, 2020.

QHR, LLC

The Hospital contracts with QHR, LLC for management advisory services. Total expenses related to the QHR, LLC contract, and charged to operations, were \$781,351 and \$1,500,206 for the years ended September 30, 2021 and 2020, respectively.

Self-Funded Health Insurance

The Hospital maintains a self-funded health insurance plan. A reserve of \$319,515 and \$659,125 in 2021 and 2020, respectively, has been established to allow for incurred but not reported claims for healthcare services based on claim history. The self-funded policy had an individual stop loss of \$125,000 in 2021 and 2020. The Hospital's aggregate stop loss coverage begins at 125% of expected claims, excluding claim amounts which are paid under the individual stop loss coverage.

OneCare Vermont, LLC

The Hospital is a participant in OneCare Vermont, LLC (OneCare), a statewide Accountable Care Organization (ACO). Beginning January 1, 2017, the Hospital entered into a risk bearing arrangement through the Vermont Medicaid program. Beginning January 1, 2018, the Hospital accepted additional risk as a member of OneCare by participating in the Medicare Next Generation Model and Blue Cross. Under the Medicare Next Generation Model, Blue Cross/Blue Shield of Vermont, and Vermont Medicaid program, the Hospital receives monthly fixed prospective payments for services provided to attributed members. The ACO is responsible for both the cost and quality of care for each attributed member. This is true whether that person uses little or no care or whether they require services consistently throughout the year. The Hospital recognizes its share of annual contract settlements as an increase or decrease to fixed prospective revenue in the statement of operations.

10. Health Care Improvement Tax

A health care improvement tax is imposed on hospitals, nursing homes, and home health agencies as part of a program to upgrade services in Vermont. Hospitals in Vermont are assessed as a percentage of net patient revenue which is determined annually by the General Assembly. The Hospital tax rate was 6% in 2021 and 2020.

11. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at September 30 are as follows:

	<u>2021</u>	<u>2020</u>
Medicare	30 %	32 %
Medicaid	11	14
Blue Cross	12	15
Other third-party payors	21	18
Patients	<u>26</u>	<u>21</u>
	<u>100 %</u>	<u>100 %</u>

12. Functional Expenses

The statements of operations reports certain expense categories that are attributable to both healthcare services and support functions. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Employee benefits are allocated based on salaries and occupancy costs are allocated by square footage. Expenses related to healthcare and support services for the year ended September 30 are as follows:

	<u>2021</u>	<u>Healthcare Services</u>	<u>Support Services</u>	<u>Total</u>

14. Fair Value Measurement

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets and liabilities measured at fair value at September 30, 2021 are summarized below:

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for the Hospital's various financial instruments included in Level 2.

The Hospital's hedge fund alternative investments are valued based on the net asset values (NAV) in accordance with U.S. GAAP as a practical expedient. The Hospital invests in hedge funds, which calculate NAV per share in accordance with FASB guidance relative to investment companies, and these investments are reported at fair value based on the NAV per share as reported by the investee. In accordance with U.S. GAAP, the investments for which fair value is measured at fair value using the practical expedient have not been categorized in the fair value hierarchy.

**NORTHWESTERN MEDICAL CENTER, INC.
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

September 30, 2021 and 2020

The fair value of the interest rate swap agreements is based on the income approach using a discounted cash flow analysis of the future cash inflows and cash outflows based on the notional amount of the interest rate swap agreement, market expectations regarding the variable rate as outlined in the Series 2016A bonds, and the fixed interest rate of the swap agreement.

The hedge fund investment primarily invests in limited partnerships and similar pooled investment vehicles often referred to as portfolio funds. These funds are managed by independent portfolio managers that employ diverse alternative investment strategies across a variety of asset classes. The alternative investment involves certain risks due to a lack of a public market and certain time restrictions on withdrawals such as lock-up periods which can be two years or longer. After expiration of the lock-up period, withdrawals typically are permitted only on a limited basis, such as monthly, quarterly, semi-annually, or annually.

Because the Hospital will never receive the assets held in the perpetual trusts, the beneficial interest in the perpetual trusts has been categorized as a Level 3 measurement. The fair value of the perpetual trusts is based on an estimate of the Hospital's portion of the fair value of the assets held by the perpetual trusts. The fair value of the assets held by the perpetual trusts is based on the market value of the underlying assets. Due to the level of risk associated with the fair value of the underlying securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the balance sheets.

Changes in the beneficial interest in perpetual trusts are comprised of the following for the years ended September 30:

	<u>2021</u>	<u>2020</u>
Fair value, beginning of year	\$939,407	\$ 941,932
Net appreciation (depreciation)	<u>192,824</u>	<u>(2,525)</u>
Fair value, end of year	<u>\$1,132,231</u>	<u>\$939,407</u>
