Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year. • List all of the organization's current officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation.

Enter -0- in columns (D), (E), and (F) if no compensation was paid. • List all of the organization's current key employees, if any. See the instructions for definition of "key employee."

• List the organization's five current highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (box 5 of Form W-2, box 6 of Form 1099-MISC, and/or box 1 of Form 1099-NEC) of more than \$100,000 from the organization and any related organizations.

• List all of the organization's former officers, key employees, and highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations.

 List all of the organization's former directors or trustees that received, in the capacity as a former director or trustee of the organization, more than \$10,000 of reportable compensation from the organization and any related organizations.

See the instructions for the order in which to list the persons above.

Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

(Complete only if you checked a box on line 12 of Part I. If you checked box 12a, Part I, complete Sections A and B. If you checked box 12b, Part I, complete Sections A and C. If you checked box 12c, Part I, complete Sections A, D, and E. If you checked box 12d, Part I, complete Sections A and D, and complete Part V.)

#### Section A. All Supporting Organizations

- 1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No," describe in **Part VI** how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.
- 2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in **Part VI** how the organization determined that the supported organization was described in section 509(a)(1) or (2).
- **3a** Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer lines 3b and 3c below.
- **b** Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in **Part VI** when and how the organization made the determination.
- c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? If "Yes," explain in **Part VI** what controls the organization put in place to ensure such use.
- **4a** Was any supported organization not organized in the United States ("foreign supported organization")? *If* "Yes," *and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.*
- **b** Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? *If* "Yes," *describe in* **Part VI** *how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.*
- **c** Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? *If* "Yes," *explain in* **Part VI** *what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.*
- 5a Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).
- **b Type I or Type II only.** Was any added or substituted supported organization part of a class already designated in the organization's organizing document?
- c Substitutions only. Was the substitution the result of an event beyond the organization's control?
- 6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? *If "Yes," provide detail in* **Part VI.**
- 7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).
- 8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? *If "Yes," complete Part I of Schedule L (Form 990).*
- **9a** Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes," provide detail in **Part VI.**
- **b** Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? *If* "Yes," *provide detail in* **Part VI.**
- c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI.
- **10a** Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? *If* "Yes," *answer line 10b below.*
- **b** Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)

#### **General Rule**

X For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling \$5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions.

#### **Special Rules**

For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of (1) \$5,000; or (2) 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than \$1,000 exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I (entering "N/A" in column (b) instead of the contributor name and address), II, and III.

For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions *exclusively* for religious, charitable, etc., purposes, but no such contributions totaled more than \$1,000. If this box is checked, enter here the total contributions that were received during the year for an *exclusively* religious, charitable, etc., purpose. Northwestern Medical Center: Part V, Section B, Line 5: As part of our 2021/2022 (FY'22) Community Health Needs Assessment, NMC gathered input in a variety of ways including interviews with physicians, providers, and community partners; perspectives from staff and volunteers; discussions with the Incorporators from throughout our service area; patient satisfaction insights; and utilization trend analysis. Significant input, perspective, and prioritization were received through a local group of experts who were asked to validate the direction and findings of the assessment and to establish priority among various identified issues. The composition of this group of community members aligns with the Federal regulations for involvement of community leaders with specified skills or representing specified constituencies and allows for them to use their connections to their neighbors and clientele and insights there in to assist in refining and prioritizing the community health needs.

The Community Health Improvement Plan was developed by recognizing NMC's role as a community hospital in addressing the health needs of the population, as well as developing an understanding of what other organizations are doing to address the needs of the populations we serve. In addition, we restructured our Accountable Community for Health to specifically address systematic issues that are creating barriers to health.

NMC's most recent CHNA also addressed several additional items that NMC is working with other community partners to lead the CIRES Accountable for Health (ACH). Part VI, Line 2:

In alignment with the Federal mandate, Northwestern Medical Center conducted a comprehensive Community Health Needs Assessment in 2022. This document was formally approved by the Hospital's Board of Directors at their May 6, 2022 meeting, placing it in the Hospital's 2022 Fiscal Year. This document replaces the previous Community Health Needs Assessment which was approved in the Hospital's 2019 Fiscal Year.

Five top priorities were identified: BIPOC; Healthy & affordable food; Affordability of Healthcare; Reliable Transportation and Environmental, Physical and Emotional Safety - and action plans have been created to help address each of these priorities. The current (and previous) assessment is available free of charge on the Hospital website and the Hospital's Community Relations Office is available to provide free printed copies as requested.

# Northwestern Medical Center, Inc.

FINANCIAL STATEMENTS

September 30, 2023 and 2022 With Independent Auditor's Report

#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees Northwestern Medical Center, Inc.

#### **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the accompanying financial statements of Northwestern Medical Center, Inc., which comprise the balance sheets as of September 30, 2023 and 2022, and the related statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of Northwestern Medical Center, Inc. as of September 30, 2023 and 2022, and the results of its operations, changes in its net assets, and its cash flows for the years ended, in accordance with U.S. generally accepted accounting principles.

#### Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Northwestern Medical Center, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Change in Accounting Principle

As discussed in Note 1 to the financial statements, during the year ended September 30, 2023, Northwestern Medical Center, Inc. adopted new accounting guidance, Financial Accounting Standards Board Accounting Standards Codification Topic 842, Leases. Our opinion is not modified with respect to that matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Northwestern Medical Center, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Northwestern Medical Center, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Northwestern Medical Center, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

### **Organization**

Northwestern Medical Center, Inc. (Hospital or NMC) is a 70-bed, not-for-profit hospital in St. Albans, Vermont. The financial statements also include the accounts of the Northwestern Medical Center Auxiliary, Inc. (Auxiliary) which is organized specifically for the promotion and support of the Hospital. The Hospital and the Auxiliary are collectively referred to as the Organization. The Hospital is the sole-owning member of the Auxiliary. Auxiliary volunteers provide the Hospital approximately 14,200 hours of support annually, as well as financial support.

The Hospital and Auxiliary are tax-exempt corporations pursuant to Section 501(c)(3) of the Internal Revenue Code (Code) and, as such, are not subject to certain income and property taxes.

### 1. <u>Summary of Significant Accounting Policies</u>

#### Basis of Presentation

Net assets and revenues, expenses, and gains are classified based on the existence or absence of donor-imposed restrictions in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 958, *Not-For-Profit Entities*, as described below. Under FASB ASC Topic 958 and FASB ASC Topic 954, *Health Care Entities*, all not-for-profit healthcare organizations are required to provide a balance sheet, a statement of operations, a statement of changes in net assets, and a statement of cash flows. FASB ASC Topic 954 requires reporting amounts for an organization's total assets, liabilities, and net assets in a balance sheet; reporting the change in an organization's net assets in statements of operations and changes in net assets; and reporting the change in its cash and cash equivalents in a statement of cash flows.

**Net assets without donor restrictions**: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Hospital. These net assets may be used at the discretion of the Hospital's management and the Board of Directors (Board).

**Net assets with donor restrictions**: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Hospital or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of operations and changes in net assets.

#### **Notes to Financial Statements**

### September 30, 2023 and 2022

### Use of Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

Cash equivalents include money market funds with a maturity of three months or less when purchased. The Hospital maintains its cash in deposit accounts which, at times, may exceed federal depository insurance limits. Management believes credit risk related to these investments is minimal. The Hospital has not experienced any losses in such accounts.

### Revenue Recognition and Accounts Receivable

Patient service revenue is reported at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Hospital bills the patients and third-party payors several days after the services are performed or the patient is discharged from the hospital. Revenue is recognized as performance obligations are satisfied.

The Hospital has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Hospital's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payor pays for that service will be one year or less. However, the Hospital does in certain instances enter into payment agreements with patients that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in hospitals receiving inpatient acute care services or patients receiving services in outpatient centers. The Hospital measures the performance obligation from admission into the hospital or the commencement of an outpatient service to the point when it is no longer required to provide services. Revenue from performance obligations satisfied at a point in time is generally recognized when the goods are provided to patients and customers in a retail setting (for example, cafeteria) and the Hospital does not believe it is required to provide additional goods or services related to that sale.

### Notes to Financial Statements

### September 30, 2023 and 2022

Because all of its performance obligations relate to contracts with a duration of less than one year, the Hospital has elected to apply the optional exemption provided in FASB ASC 606-10-50-14 (a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Hospital determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Hospital's policy, and implicit price concessions provided to uninsured patients. The Hospital determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policies, and historical experience. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with this class of patients and records these as a direct reduction to net patient service revenue. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and changes in commercial contractual terms resulting from contract negotiations and renewals.

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to patient accounts receivable.

The Hospital has agreements with third-party reimbursing agencies that provide for payments at amounts different from its established rates. A summary of the payment arrangements with major third-party reimbursing entities follows:

#### <u>Medicare</u>

Due to its geographic location, the Hospital is deemed to be a sole community hospital. Under this designation, it is reimbursed at a prospectively-determined rate per inpatient discharge based upon its historical costs from a base period. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Outpatient services rendered to Medicare program beneficiaries are paid at prospectivelydetermined rates. These rates vary according to an ambulatory payment classification system that is based on clinical, diagnostic, and other factors. Final settlements have been determined for all years through September 30, 2019.

#### Notes to Financial Statements

### September 30, 2023 and 2022

#### <u>Medicaid</u>

Inpatient services rendered to Medicaid program beneficiaries are reimbursed at acuitybased prospectively-determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are paid at prospectively-determined rates. The Hospital's Medicaid cost reports have been audited by the fiscal intermediary through September 30, 2013.

#### OneCare Vermont, LLC

The Hospital is a participant in OneCare Vermont, LLC (OneCare), a statewide Accountable Care Organization (ACO). Beginning January 1, 2017, the Hospital entered into a risk bearing arrangement through the Vermont Medicaid program. Beginning January 1, 2018, the Hospital accepted additional risk as a member of OneCare by participating in the Medicare Next Generation Model and Blue Cross. Under the Medicare Next Generation Model, Blue Cross/Blue Shield of Vermont, and Vermont Medicaid program, the Hospital receives monthly fixed prospective payments for services provided to attributed members. The ACO is responsible for both the cost and quality of care for each attributed member. This is true whether that person uses little or no care or whether they require services consistently throughout the year. As a participant in OneCare, the Hospital acknowledges that calculations are based on a prospective attribution model and that adjustments will be made during the year for factors such as changes in attribution. The Hospital's maximum settlement exposure is calculated by applying the number of shares in OneCare to the total program exposure. The maximum financial exposure to the Hospital for all ACO payor programs for 2023 and 2022 is approximately \$1,875,200 and \$1,985,750, respectively, which has been fully reserved for. The Hospital recognizes its share of annual contract settlements as an increase or decrease to fixed prospective revenue in the statement of operations.

#### <u>Commercial</u>

Inpatient and outpatient services rendered to commercial insurance groups such as Blue Cross Blue Shield of Vermont (Blue Cross), MVP Health Care, and Cigna Healthcare are reimbursed at submitted charges less a discount. Physician professional fees are reimbursed on a fee schedule. The amounts paid to the Hospital are not subject to any retroactive adjustments.

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively-determined rates per discharge, discounts from established charges and prospectively-determined daily rates.

Gross revenue from the Medicare and Medicaid programs accounted for approximately 22% and 4%, respectively, of the Hospital's patient revenue (net of contractual allowances and discounts) for the year ended 2023, and 22% and 7%, respectively, of the Hospital's patient revenue (net of contractual allowances and discounts) for the year ended 2022.

### Notes to Financial Statements

### September 30, 2023 and 2022

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result of investigations by governmental agencies, various healthcare organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements. Compliance with such laws and regulations may also be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and potential exclusion from the related programs. There can be no assurance that regulatory authorities will not challenge the Hospital's compliance with these laws and regulations, and it is not possible to determine the impact (if any) such claims or penalties would have upon the Hospital. In addition, the contracts the Hospital has with commercial and other payors also provide for retroactive audit and review of claims.

Settlements with third-party payors for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Hospital's historical settlement activity, including a determination it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews, and investigations.

The following table summarizes the Hospital's settlements and settlement activity with its significant third-party payors:

Consistent with the Hospital's mission, care is provided to patients regardless of their ability to pay. Therefore, the Hospital has determined it has provided implicit price concessions to uninsured patients and other uninsured balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represents the difference between amounts billed to patients and the amounts the Hospital expects to collect based on its collection history with those patients.

Patients who meet the Hospital's criteria for charity care are provided care without charge or at amounts less than established rates. Such amounts determined to qualify as charity care are not reported as revenue. The criteria for charity care consider family income, net worth, and extent of financial obligations, including healthcare costs.

### Notes to Financial Statements

### September 30, 2023 and 2022

The net cost of charity care provided was approximately \$903,000 in 2023 and \$876,000 in 2022. The total cost estimate is based on the Hospital's cost accounting system. The cost accounting system derives a cost estimate by allocating expense at a detail charge level.

As part of its mission, the Hospital underwrites a number of healthcare related programs that may not be otherwise available to the community. These activities directly align with the Community Health Needs Assessment, targeting the priorities both directly and indirectly.

Some examples of healthcare related programs are described below:

- The Healthy Hearts community health fair focuses on improved cardiovascular health with free screenings, educational booths, opportunities to try fitness activities, engaging kids' activities, healthy snacks, and opportunities to discuss screening results and health questions with providers.
- NMC's Lifestyle Medicine Department offers various community wellness and prevention programming, including media pieces, special events, smoking cessation activities, public lectures, and health related support groups.
- NMC invests staff time and production costs to dedicate space in hospital publications, paid advertising, proactive traditional media, and social media to raise awareness of health issues, prevention efforts, wellness activities, and supportive offerings put forth by the Hospital as well as community providers, who often lack the staff or resources to fully communicate these important messages to the target audiences in the community.
- NMC underwrites and voluntarily participates in local United Way programs and outreach with a focus on health, education, and income, all of which contribute to improved quality of life and overall community health.

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Hospital also provides services to uninsured patients and offers those uninsured patients a discount, either by policy or law, from standard charges.

The Hospital estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions based on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. Subsequent changes that are determined to be the result of an adverse change in the patient's ability to pay are recorded as bad debt expense. Bad debt expense for the years ended September 30, 2023 and 2022 was not significant.

### Notes to Financial Statements

### September 30, 2023 and 2022

The Hospital has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the following factors:

- Payors (for example, Medicare, Medicaid, managed care or other insurance, patient) have different reimbursement and payment methodologies
- Length of the patient's service or episode of care
- Method of reimbursement (fee for service or fixed prospective payment)
- Hospital's program that provided the service

For the years ended September 30, 2023 and 2022, the Hospital determined revenue recognized from goods and services that transfer to the customer at a point in time is not material to the financial statements.

### Short-Term Investments, Assets Limited as to Use, and Investments

Short-term investments include money market funds, certificates of deposit and highly liquid debt instruments with a maturity of one year or less when purchased. These funds represent excess cash from operations that are available for day-to-day operational needs, as required.

Assets limited as to use include donor-restricted investments, funds collateralizing property financed by bank loans, deferred compensation plan assets and designated assets set aside by the Board for future capital improvements, over which the Board retains control and which it may, at its discretion, use for other purposes.

Investments represent donations without donor restrictions received over the years, as well as excess funds generated from the operations of the Hospital. These funds, collectively, may only be used upon Board approval. While these funds are identified and referred to as the Hospital's endowment, they are not endowment funds as defined by the Uniform Prudent Management of Institutional Funds Act (UPMIFA) or GAAP and are not subject to any donor limitations or guidelines with respect to withdrawals.

Investments also include the non-current portion of short-term investments.

Investments in equity securities are reported at readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. The Hospital has adopted FASB ASC Topic 825, *Financial Instruments*, and has elected the fair value option relative to its investments which consolidates all investment performance activity within the excess (deficiency) of revenues, gains and other support over expenses and losses in the statements of operations to simplify the presentation of these amounts.

Investment income or loss on investments, including realized gains and losses on investments, unrealized gains and losses on investments, and interest and dividends is included in nonoperating gains (losses), unless the income or loss is restricted by donor or law.

#### Notes to Financial Statements

#### September 30, 2023 and 2022

Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

#### Employee Fringe Benefits

The Hospital has an "earned time" plan to provide certain fringe benefits for its employees; however, certain employees are not eligible for this plan. Under this plan, each employee "earns" paid leave for each payroll period. Accumulated hours may be used for vacations, holidays, or illnesses. Hours earned, but not used, vest with the employees up to established limits. The Hospital accrues the cost of these benefits as they are earned.

#### Property and Equipment

Property and equipment acquisitions are recorded at cost or, if contributed, at fair market value determined at the date of donation. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. Equipment under finance lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation in the financial statements. Interest costs incurred during the period of construction of capital assets are capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets such as land, buildings, or equipment are reported as net assets without donor restrictions, and are excluded from the excess (deficiency) of revenues, gains, and other support over expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

The Hospital reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

#### Right-of-Use Assets and Lease Liabilities

Effective October 1, 2022, the Organization adopted FASB ASC Topic 842, *Leases* (Topic 842). The Hospital determines if an arrangement is a lease or contains a lease at inception of a contract. A contract is determined to be or contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) in exchange for consideration. The Hospital determines these assets are leased because the Hospital has the right to obtain substantially all of the economic benefit from and the right to direct the use of the identified asset.

#### Notes to Financial Statements

#### September 30, 2023 and 2022

Assets in which the supplier or lessor has the practical ability and right to substitute alternative assets for the identified asset and would benefit economically from the exercise of its right to substitute the asset are not considered to be or contain a lease because the Hospital determines it does not have the right to control and direct the use of the identified asset. The Hospital's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

In evaluating its contracts, the Hospital separately identifies lease and non-lease components, such as maintenance costs, in calculating the right-of-use (ROU) assets and lease liabilities for its facility and equipment leases. The Hospital has elected the practical expedient to not separate lease and non-lease components and classifies the contract as a lease if consideration in the contract allocated to the lease component is greater than the consideration allocated to the non-lease agreement.

Leases result in the recognition of ROU assets and lease liabilities on the balance sheet. ROU assets represent the right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease, measured on a discounted basis. The Hospital determines lease classification as operating or finance at the lease commencement date.

At lease inception, the lease liability is measured at the present value of the lease payments over the lease term. The ROU asset equals the lease liability adjusted for any initial direct costs, prepaid or deferred rent, and lease incentives. Topic 842 requires the use of the implicit rate in the lease when readily determinable. As the leases do not provide an implicit rate, the Hospital elected the to use their incremental borrowing rate when the rate of the lease is not implicit in the lease agreement.

The lease term may include options to extend or to terminate the lease that the Hospital is reasonably certain to exercise. Lease expense for operating leases is recognized on a straight-line basis over the lease term.

The Hospital has elected not to record leases with an initial term of 12 months or less on the balance sheet. Lease expense on such leases is recognized on a straight-line basis over the lease term.

Upon adoption of Topic 842, the Hospital elected the package of practical expedients permitted under the transition guidance within the new standard which includes the following: relief from determination of lease contracts included in existing or expiring leases at the point of adoption, relief from having to reevaluate the classification of leases in effect at the point of adoption, and relief from reevaluation of existing leases that have initial direct costs associated with the execution of the lease contract.

#### **Notes to Financial Statements**

#### September 30, 2023 and 2022

The adoption of Topic 842 resulted in the recognition of the following assets and liabilities on October 1, 2022:

Right-of-use assets - operating lease	\$ <u>1,176,806</u>
Lease liabilities - operating, net of current portion Current portion of lease liabilities - operating	\$    960,880 <u>    215,926</u>
Lease liabilities	\$ <u>1,176,806</u>

Results for the period prior to October 1, 2022 continue to be reported in accordance with the Hospital's historical accounting treatment for leases.

#### Interest Rate Swaps

The Hospital uses interest rate swap contracts to mitigate the cash flow exposure of interest rate movements on variable-rate debt. The Hospital has adopted FASB ASC Topic 815, *Derivatives and Hedging*, to account for its interest rate swap contracts. The interest rate swaps do not qualify as cash flow hedges. Gains and losses on derivative financial instruments that do not qualify as hedges are required to be included in the performance indicator. As a result, the unrealized gains and losses on the interest rate swaps for 2023 and 2022, respectively, have been included in the excess (deficiency) of revenues, gains, and other support over expenses and losses.

#### Nonoperating Gains (Losses)

Activities other than those in connection with providing healthcare services are considered to be nonoperating. Nonoperating gains and losses consist primarily of income and gains and losses on invested funds, contributions without donor restrictions, and unrealized gains and (losses) on interest rate swaps.

#### Excess (Deficiency) of Revenues, Gains and Other Support Over Expenses and Losses

The statements of operations include excess (deficiency) of revenues, gains and other support over expenses and losses. Changes in net assets without donor restrictions which are excluded from this measure, consistent with industry practice, include permanent transfers of assets and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets).

#### **Donor-Restricted Gifts**

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received and the conditions are met. The gifts are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, the net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statements of operations as net assets

#### **Notes to Financial Statements**

#### September 30, 2023 and 2022

released from restriction. Donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions without donor restrictions in the accompanying financial statements.

#### Subsequent Events

For purposes of the preparation of these financial statements in conformity with GAAP, the Organization has considered transactions of events occurring through January 4, 2024, the date the financial statements were available for issuance.

#### 2. Availability and Liquidity of Financial Assets

The Organization maintains a general operating account to fund day to day expenditures. The Organization also has investments that can be used to fund additional operating or capital needs. In addition, the Organization has working capital of \$24,399,401 and \$30,198,847 at September 30, 2023 and 2022, respectively.

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs not financed with debt, were as follows as of September 30:

	<u>2023</u>		<u>2022</u>
Cash and cash equivalents Patient accounts receivable, net Other receivables Investments	\$ 14,524,906 12,536,968 523,515 54,788,635	\$	23,199,690 10,010,921 721,157 53,181,383
Financial assets available at year end for current use	\$ 82,374,024	\$_	87,113,151

The Organization has short-term and long-term investments which are available for general expenditure within one year in the normal course of operations with Board approval. Accordingly, these assets have been included in the quantitative information above.

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize the investment of its available funds. The Organization reports monthly to the Finance Committee and Board the days cash on hand, estimated cost report settlements to Medicare and Medicaid and estimated settlement due to a third-party payor who pays the Organization under a Prospective Interim Payment system. The Hospital's goal is generally to maintain financial assets to meet 200 days of operating expenses.

#### **Notes to Financial Statements**

#### September 30, 2023 and 2022

#### 3. <u>Patient Service Revenue</u>

Patient service revenue consisted of the following for the years ended September 30:

	<u>2023</u>	<u>2022</u>
Gross patient service revenue Inpatient services Outpatient services	\$    56,592,263 	\$ 48,680,371 <u>186,055,318</u>
Less contractual allowances and discounts	264,158,387 <u>167,054,237</u>	234,735,689 141,337,040
Patient service revenue	\$ <u>97,104,150</u>	\$ <u>93,398,649</u>

Each performance obligation is separately identifiable from other promises in the customer contract. As the performance obligations are met (i.e., room, board, ancillary services, level of care), revenue is recognized based upon the allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative standalone selling price. In instances where management determines there are multiple performance obligations across multiple months, the transaction price is allocated by applying an estimated implicit and explicit rate to gross charges based on the separate performance obligations.

In assessing collectibility, the Hospital has elected the portfolio approach. This portfolio approach is being used as the Hospital has a large volume of similar contracts with similar classes of customers. The Hospital reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, aggregating all of the contracts (which are at the patient level) by the particular payor or group of payors, will result in the recognition of the same amount of revenue as applying the analysis at the individual patient level.

Net patient service revenue recognized for the years ended September 30, 2023 and 2022 from these major payors is as follows:

	<u>2023</u>	<u>2022</u>
Medicare and Medicaid Commercial and other Self-pay	\$28,250,804 67,395,188 <u>1,458,158</u>	\$ 29,196,992 62,957,739 <u>1,243,918</u>

At September 30, 2023 and 2022, construction in progress included approximately \$6,276,000 and \$943,500, respectively, related to expansion and renovation of the emergency room. The total capital amount budgeted for this project is \$10,800,000. The project is being funded through operations and expects to be placed in service January 2024.

#### 5. Assets Limited as to Use and Investments

The composition of assets limited as to use and investments as of September 30 is as follows:

#### 6. Beneficial Interest in Perpetual Trusts

The Hospital is the beneficiary of various trusts for which it is not the trustee, consisting of \$938,168 and \$890,007 in irrevocable perpetual trusts at September 30, 2023 and 2022, respectively. The Hospital has reflected as assets in the balance sheets, included in donor-restricted assets limited as to use, its share of the fair value of the underlying investments in the trusts. Receipts of income are included as investment income without donor restrictions when received. Receipts from the trusts were approximately \$34,200 and \$133,100 for the years ended September 30, 2023 and 2022, respectively, and were recorded in net investment income.

The 2016A bond issue requires the Hospital to meet certain covenants. As of September 30, 2023, the Hospital was in compliance with those covenants.

#### Interest Rate Swaps

The Hospital has entered into two swap agreements. During 2023 and 2022, the interest rate swap agreements did not qualify for hedge accounting.

The Hospital is required to include the fair value of the swaps in the balance sheet, and annual changes, if any, in the fair value of the swaps in the statement of operations. For example, during the Bonds' holding period, the annually calculated value of the swaps will be reported as assets if expected interest rates increase above those expected on the date the swaps were entered into (and as an unrealized gain in the statement of operations), which will generally be indicative that the net fixed rate the Hospital is paying is below market expectations of rates during the remaining term of the swap. The swaps will be reported as an asset or liability if expected interest rates increase below those expected on the date the swaps were entered into, which will generally be indicative that the net fixed rate the net fixed rate the Hospital is paying term of the swaps were entered into, which will generally be indicative that the net fixed rate the Hospital is paying term of the swaps were entered into, which will generally be indicative that the net fixed rate the Hospital is paying on the swap is above market expectations of rates during the remaining term of the swap. Unrealized gains and losses are reported in the statement of operations. These annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements. The Hospital retains the sole right to

#### Notes to Financial Statements

terminate the swap agreements should the need arise; however, such termination may result in a payment or receipt based on interest rate expectations at that time. The Hospital recorded the swaps at their asset position of \$1,409,379 and \$1,132,363 at September 30, 2023 and 2022, respectively. The interest rate swap contract disclosures are summarized as follows:

Fixed Rate <u>Paid</u>	Variable Rate <u>Received</u>	Current Notional <u>Amount</u>	Fair Value as of <u>September 30, 2023</u>	Fair Value as of <u>September 30, 2022</u>	Termination <u>Date</u>	Counterparty

The variable rate for the interest rate swaps is based on 68% of the SOFR rate.

#### 8. <u>Retirement Plans</u>

The Hospital sponsors a 403(b) retirement plan for its employees. To be eligible to participate in the 403(b) plan, an employee must meet certain requirements as specified in the Plan documents. The Hospital matches 1% if the employee contributes 2% or 3% of their annual salary, and the Hospital contributes 2% if the employee contributes 4% or more of their annual salary.

The Hospital also sponsors a Money Purchase Pension Plan (MPPP) covering substantially all of its employees. The Hospital's contributions are determined for, and allocated to, eligible participants based on a predetermined percent of compensation paid. Individual benefits at retirement are the amounts which can be provided by the sums contributed to each participant's account. The Board voted to terminate the plan as of December 31, 2023 with all employees becoming immediately vested.

Total retirement plan expenses charged to operations for the 403(b) and MPPP plans were \$1,407,359 and \$2,362,645 in 2023 and 2022, respectively.

The Hospital has a nonqualified deferred compensation plan established under Section 457 of the Code. The plan permits certain management and highly compensated employees to defer portions of their compensation based on Internal Revenue Service guidelines. The Hospital has cumulatively recorded \$5,024,931 and \$3,863,293 at September 30, 2023 and 2022, respectively, related to this plan. The related investments are segregated in a separate account and reported in the balance sheet along with the Hospital's related liability to the employees.

### 9. Commitments and Contingencies

#### Lease Obligations

The Hospital has entered the following lease arrangements:

#### Finance Leases

The Hospital has a building lease used for operations. The termination of the leases generally are prohibited unless there is a violation under the lease agreements.

#### **Operating Leases**

The Hospital has three facility leases that expires from 2025 through 2033. These leases generally, contain renewal options and annual escalating clauses. termination of the leases is generally prohibited unless there is a violation under the lease agreements.

#### Short-term Leases

The Hospital has certain leases that are for a period of 12 months of less or contain renewals for period of 12 months or less. The Hospital does not include short-term leases within the balance sheet since it has elected the practical expedient not to include these leases within the recognized lease right-of-use assets and lease liabilities.

#### Lease Cost

Lease cost for the year ended September 30, 2023 is as follows:

Finance lease: Amortization of ROU asset Interest on lease liabilities	\$    93,166 42,830

#### Professional Liability Insurance and Litigation

The Hospital carries malpractice insurance coverage under a claims-made policy. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured. The Hospital intends to renew its coverage on a claims-made basis and has no reason to believe that it may be prevented from renewing such coverage.

The Hospital is subject to complaints, claims and litigation due to potential claims which arise in the normal course of business. GAAP require the Hospital to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. Amounts accrued under this provision are included in other current assets and other accrued expenses in the balance sheets. The Hospital at various times during the year may be involved in other legal proceedings of a nature considered normal to its business. The Hospital has evaluated its exposure to losses arising from identifiable potential claims and has properly accounted for them in the balance sheets for the years ended September 30, 2023 and 2022.

### <u>QHR, LLC</u>

The Hospital contracts with QHR, LLC for management advisory services. Total expenses related to the QHR, LLC contract, and charged to operations, were approximately \$635,433 and \$608,900 for the years ended September 30, 2023 and 2022, respectively.

#### Self-Funded Health Insurance

The Hospital maintains a self-funded health insurance plan. A reserve of \$1,315,907 and \$683,175 in 2023 and 2022, respectively, has been established to allow for incurred but not reported claims for healthcare services based on claim history. The self-funded policy had an individual stop loss of \$125,000 in 2023 and 2022. The Hospital's aggregate stop loss coverage begins at 125% of expected claims, excluding claim amounts which are paid under the individual stop loss coverage.

### 10. Health Care Improvement Tax

A health care improvement tax is imposed on hospitals, nursing homes, and home health agencies as part of a program to upgrade services in Vermont. Hospitals in Vermont are assessed as a percentage of net patient revenue which is determined annually by the General Assembly. The Hospital tax rate was 6% in 2023 and 2022.

#### 11. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at September 30 are as follows:

	<u>2023</u>	<u>2022</u>
Medicare	22 %	23 %
Medicaid	11	11
Blue Cross	12	12
Other third-party payors	34	32
Patients	<u></u>	22
	<u>_100</u> %	<u> 100</u> %

#### 12. Functional Expenses

The statements of operations reports certain expense categories that are attributable to both healthcare services and support functions. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Employee benefits are allocated based on salaries and occupancy costs are allocated by square footage. Expenses related to healthcare and support services for the year ended September 30 are as follows:

	Healthcare	Support	
<u>2023</u>	<u>Services</u>	<u>Services</u>	<u>Total</u>

#### 14. Fair Value Measurement

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets and liabilities measured at fair value at September 30, 2023 are summarized below:

	Fair Value Measurements Using

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for the Hospital's various financial instruments included in Level 2.

The Hospital's hedge fund alternative investments were valued based on the net asset values (NAV) in accordance with GAAP as a practical expedient. The Hospital invested in hedge funds, which were calculated NAV per share in accordance with FASB guidance relative to investment companies, and these investments were reported at fair value based on the NAV per share as reported by the investee. In accordance with GAAP, the investments for which fair value is measured at fair value using the practical expedient have not been categorized in the fair value hierarchy.

The fair value of the interest rate swap agreements is based on the income approach using a discounted cash flow analysis of the future cash inflows and cash outflows based on the notional amount of the interest rate swap agreement, market expectations regarding the variable rate as outlined in the Series 2016A bonds, and the fixed interest rate of the swap agreement.

### Notes to Financial Statements

### September 30, 2023 and 2022

Because the Hospital will never receive the assets held in the perpetual trusts, the beneficial interest in the perpetual trusts has been categorized as a Level 3 measurement. The fair value of the perpetual trusts is based on an estimate of the Hospital's portion of the fair value of the assets held by the perpetual trusts. The fair value of the assets held by the perpetual trusts is based on the market value of the underlying assets. Due to the level of risk associated with the fair value of the underlying securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the balance sheets.

Changes in the beneficial interest in perpetual trusts are comprised of the following for the years ended September 30:

	<u>2023</u>		<u>2022</u>	
Fair value, beginning of year	\$	890,007	\$	1,132,231
Net appreciation (depreciation)	_	<u>48,161</u>	_	(242,224)
Fair value, end of year	\$_	938,168	\$	890,007
