PAYMENT MODEL DEVELOPMENT: Global Budget Technical Advisory Group (TAG) Update

Global Budget TAGProgress and Future Plans

- Currently working to develop a straw model based on TAG recommendations to-date
- Looking ahead: TAG will react to straw model this summer, and see a more developed model with actual Vermont data in fall
- In the meantime, continuing to tackle key issues: strategies to support care transformation, terms of payer participation, terms of hospital participation, budget calculation and payment operations, and monitoring and evaluation

TAG materials are publicly available on the GMCB website

Key Areas of Methodology

• In the coming months, staff will seek Board member input on critical methodology decision points. Questions may include (among many others)...

Base Budget	 Given that any global payment methodology will utilize claims, how to trend baseline to current day? What adjustments, if any, should be made to the base budget?
Annual Trends and Adjustments	 How to balance keeping up with inflation/costs and affordability? How to incentivize efficiency, reduce waste, and reward high-value care?
Regulatory Mechanism	 How could Vermont administer global payments? Provider rate setting vs. payer regulation approaches
Quality Framework, Monitoring, Evaluation	 What quality measures should be part of a global payment model? What measures should be part of a monitoring framework?

COMMUNITY AND PROVIDER ENGAGEMENT TO SUPPORT HOSPITAL TRANSFORMATION

Community and Provider EngagementProgress Update

- As directed by the Legislature, GMCB has retained an expert to support a "data-informed, patient-focused, community-inclusive engagement process for Vermont's hospitals"
- Oliver Wyman will review data and solicit local input to develop options that ensure Vermonters have sustained access to affordable care. They will be working directly with community members, businesses, hospitals, and health care organizations to ensure a wide range of voices are represented in these discussions
- A current contractor will provide data analytics support

Community and Provider Engagement

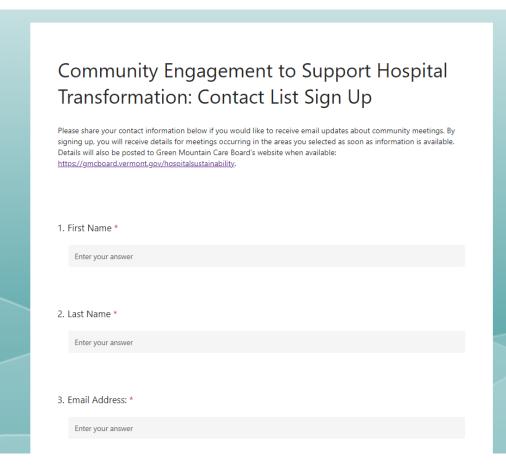

GREEN MOUNTAIN CARE BOARD

 Community meetings are slated to begin in the fall, with initial outreach beginning this month

Progress Update

Vermonters are encouraged to sign up for emails about community meetings in their region by visiting GMCB
Community Engagement to Support
Hospital Transformation

Meeting details will be posted on GMCB's website as they become available.

Opportunities for GMCB & Public Input

Subsequent APM Agreement

AHS Lead, GMCB Collab.

Developing Value-Based Payment Models

Hospital Global Budget Devel.

GMCB Lead, AHS Collab.

Community Engagement to Support Hospital Transformation

GMCB Lead, AHS Collab.

GMCB Member Input

- NOFO (State application) GMCB input will inform application development; vote prior to submission
- Final Agreement GMCB vote required for Chair to sign
- Implementation may require use of one or more GMCB regulatory authorities; if so, GMCB would need to undertake rulemaking. GMCB would provide input on draft rule and vote on final rule
- Community meetings attend as listeners
- Provide feedback on priorities and options for transformation

Public/ Stakeholder Input

- GB TAG input (payment model design)
- AHS stakeholder engagement
- GMCB public comment period
- GMCB stakeholder engagement in rule development
- · GMCB public comment period
- Community meetings review local current and future state; brainstorm and prioritize local needs; provide feedback on options for transformation

DISCUSSION
