**Town/City:** South Burlington

**Topic:** Hospital Budget

**Comment:** Hi my name is Danielle I'm the clinic manager at Maitri - an OBGYN office in South Burlington. Here at Maitri we strive to give the best care possible to our patients. You have to remember there are also privately owned business that take care of the area's patients. It's not only UVM. Without support there will not be business like us. Which will be a huge loss for patients as they don't always want to go to a big hospital where they feel like a number and not a person or patient. Maitri and other small business don't get half as much money with reimbursements from insurances for procedures, medications, visits ect. Look around there aren't many private practices left. It would be nice for insurance companies or funding personnel to come and shadow these amazing providers and see how much time and endless dedication goes into our patient care. Funding and support should be equal if not more for the small practices! I just ask that you people listen to all the comments coming in rooting for small business and give them the funding they need and deserve. Thank you!
