Comment:

North Country Hospital in Newport Vermont is essential to the health and well-being of our community. I currently work for home health and see so many people who don't have any means to travel out of our area for healthcare. North Country Hospital enables them to get timely and excellent care and is a matter of life or death for so many. Without our little hospital I fear for what would happen to our community. In addition, we are a very impoverished area and NCH has been a great employer, gives our kids a reason to stay in Vermont, attracts teachers and other professionals that we so desperately need.
