Topic: Community Conversations: Health Care Sustainability/Grace Cottage Family Health & Hospital

Comment: I am a woman with strong opinions about health care, based on my 76 years as a recipient of medical services in eight states. Some of my experiences were good, most were average, and a few were awful. For the past 20 years, I have received services from Grace Cottage's clinic, ER, PT, lab, radiology, and pharmacy. For several years, I also served as a volunteer which acquainted me with their personnel and inner-workings. Unlike most others familiar with Grace Cottage, I do not write to tell you what a wonderful facility it is. I write to make a recommendation to you. Study Grace Cottage, learn how they do what they do, and make that the standard for which all health care facilities in Vermont should aspire. Grace Cottage is that good and functions that well. I can think of nothing, not one thing, negative to say about Grace Cottage and the folks who work there. They deserve every accolade they receive.
