Topic: Health care - elder care

Comment: As a state we have failed. We Knew we had a aging population and we have not done anything to set up or plan ahead. if we as a state do not do something soon by registering or providing more eldercare facilities - from homes to level 3 or skilled nursing homes we will not have any hospitals left they will be nursing homes. I understand to fast track this the state need to financially support caregivers and facilities.

Post Comment: Yes
