**Name:** Natalie Morris

**Affiliation:** Trustee NVRH and a consumer of NVRH

**Town/City:** Peacham

**Topic:** Hospital Budget

**Comment:** It is essential that our hospital systems have the ability to run as effective business operations and have the financial resources needed to maintain the care and quality that we have today. Artificial, non economic based constraints will drive the opposite outcome that I think GMCB is hoping to achieve. Capping top line growth is not the answer- it doesn't account for volume increases or the realities of inflation. Please seriously consider revising the current guidance.

**Post Comment:** Yes
