Comment: Dear Green Mountain Care Board Members, I am writing to express my strong opposition to the AHEAD model and to any legislative language that proposes to require or implement it. As stated in the open letter you were recently copied on, there is no evidence that the AHEAD model as currently described will do anything to solve the critical problems Vermonters face of access to and affordability of health care. We continue to waste time and money on these "models" that accomplish nothing while Vermonters suffer and the solutions to our problems - strengthened primary care, expanded mental health, tighter regulation of hospital spending - continue to be obvious. Thank you for your continued scrutiny of AHEAD and efforts to rein in hospital spending. Patrick Flood
