Topic: Health Insurance Rate Review

Comment:

It is unacceptable to see BCBSVT request an excessive increase of 21% on the backs of individual payers. They claim (pun intended) that it is due to "extraordinary cost pressures" and yet, in the next breath, blame it on the "choices" of us who are in need of care, and the lawmakers who are trying to keep the healthcare business from going under completely. I urge the Care Board to reject the increase entirely, and rein in BCBSVT's unconscionable greed.
