**Comment:**

To Whom it May Concern,

I am very concerned in the possibility of Blue Cross raising their % of insurance at such a high rate. My husband and I are retired and with tax increases and other cost of living increases it is very concerning on how we will be able to continue to pay for these cost increases. I hope that you will be able to decrease this proposed increase so that myself and other Vermonters can cover these always increased expenses. Thank you.
