**Topic:** Accountable Care Organization

**Comment:** I'm concerned about a new possible ACO Reach entity (Vytalize) that would affect my healthcare delivery. I recently switched to traditional Medicare with a gap plan to avoid supporting the privatization of Medicare. I'm concerned that these profit making entities will put profit before care. It seems to me that there is enough administrative cost without adding another administrative layer. I hope you will share the contract publicly and will extend the times for comments and public information . Thank you
