Topic: Hospital Budget

Comment: As a patient of a small independently owned, women run practice I'd like to let you know how important it is to people like me to keep these independent practices up and running. For the past year I have heavily relied on the support and care I have received from these women, and unfortunately as I work in a hospital I know how different it would be for me if I were having to do this through a hospital group. The Maitri team is compassionate, caring, so personable and they go out of their way time and time again to care for their patients. If the hospital budgets increase they may not be able to compete, and so many women both employees and patients would be at a huge loss. We love our independent practice and would be devastated to see them have to close because of this increase.
