

## GMCB Analytical Services Requests

The Green Mountain Care Board Analytical Team (A-Team) is here to assist you with analytic and information services. Completion of this eight-question Webform helps the A-Team to triage and prioritize potential analytical work. Analytical services requests are discussed at A-Team meetings which typically occur on Monday afternoons. An A-Team member will contact you to discuss your request, usually within one week of receiving the initial Webform request. Please note that the GMCB may require requestors to obtain an Individual User Affidavit (IUA) under our Data Use Agreement (DUA) if requests could result in the disclosure of data subsets and tables with restricted data elements as identified by rule.

Access the Webform here: <https://gmcbboard.vermont.gov/form/gmcb-analytical-services-request>

To help you prepare for your submission, these are the questions you will find on the Webform:

### Page 1 Demographics

Name  
Email  
Phone (optional)  
Organization/Agency

### Page 2 Questions

1. What is the research question?
2. How will the data be used to answer the question?
3. How will the results be used to support the Board's regulatory decision-making, if known?
4. Please describe the product that should result from the data analysis, if known. (e.g., report, presentation, slideshow, dashboard, etc.)

### Page 3 Questions

5. How does this research support public interest around cost, use, and efficiency of health care services?
6. What are potential risks to protection of data privacy and security, if known?

### Page 4 Questions

7. When do you need these results (month and year)?
8. Why do you need these results by the requested date above? (e.g., legislative session, regulatory cycle, report publication, etc.)
