Dear Chair Foster,

Thank you for the opportunity to express support for OneCare Vermont's (OCV's) proposed fiscal year 2023 budget. Together with hospitals and other providers, OCV continues to make substantial progress creating value-based care in our state.

OneCare Vermont is integral for negotiating value-based care contracts for providers and providing actionable data to guide hospital decision-making. Hospitals share a commitment to improve access and quality and make health care more affordable. Our work to transition from a fee-for-service system to one that values and prioritizes wellness and prevention as much as illness and disease management is critical.

The current health care landscape is incredibly difficult right now. With this comes the need for stability in our provider network and within the ACO helping to guide the way in our collective reform efforts. We support the reform work, goals and resources OneCare has presented in their budget and respectfully ask that the Green Mountain Care Board do the same.

Sincerely,

Mike Del Trecco
