*Re: Docket No. GMCB-010-16con, Replacement of the da Vinci Robotic Surgical System,  
Project Cost \$2,347,931*

Dear Donna:

This letter is intended to correct an error in the total Project cost associated with The University of Vermont Medical Center's CON application for replacement of our da Vinci robotic surgical system.

When the CON financial tables were completed, we inadvertently used a prior version of the vendor's quote that included a \$50,000 upgrade for a new patient table. This upgrade was later determined to be unnecessary, but the cost was nevertheless included in the financial tables and in the total Project cost listed on pages 3 & 9 of the CON application.

Enclosed please find the amended CON financial tables, reflecting the correct fixed equipment cost of \$2,345,000, and pages 3 & 9 of the CON application, updating the total cost of the Project to \$2,347,931, the amount for which CON approval is sought.

If you or any members of your staff have further questions concerning our application, please feel free to contact me any time.

Thank you for your attention to this letter.

Very truly yours,

A handwritten signature in blue ink, appearing to read "S. Klein". The signature is fluid and cursive, with the first letter of the first name being a large, stylized "S".

Steven J. Klein, Esq.  
Director of Legal Affairs & Assistant General Counsel
