**RE: Docket No. GMCB-019-16con, Proposed Development of Green Mountain Urgent Care, PLLC in Manchester, Vermont.**

Dear Mr. Bernal:

Thank you for your letter of November 22, 2016 requesting a jurisdictional determination regarding the proposed development of Green Mountain Urgent Care, PLLC in Manchester.

The letter represents that Thomas Sterling and Janel Kittredge intend to develop Green Mountain Urgent Care in Manchester. The letter represents that the center will offer a wide array of primary care services routinely offered in primary care physician offices. Although some Green Mountain Urgent Care physicians may have more advanced training, it is represented that the scope of practice will be confined to urgent care services customarily delivered by a primary care physician. The center intends to maintain longer office hours, including evenings, weekends and holidays.

Based on the representations contained in the November 22 letter, the proposed project does not trigger Certificate of Need review. However, should Green Mountain Urgent Care, PLLC consider future changes to or expansions of the type or scope of services offered, please notify the Green Mountain Care Board immediately so that we may determine whether further review is required. This no jurisdiction determination only applies to the level of services represented in the letter dated November 22, 2016.

If you have any questions, please do not hesitate to contact me at (802) 828-2918.

Sincerely,

s/ Donna Jerry
