**RE: Docket No. GMCB-010-15con, Proposed Ambulatory Surgical Center**

Dear Donna:

In your April 5, 2016 letter request to the Applicant in the above matter, information was requested seeking CPT coding and updates for the list of initial surgeries and procedures by specialty that the Green Mountain Surgery Center intends to offer as set forth in Exhibit 3 in the Application. We are writing to advise the Green Mountain Care Board that receipt of the CPT/HCPCS coding information for the services listed in Exhibit 3 is critical for the membership of VAHHS to be able to evaluate the impact of the Application on its members. Once the information is received, we will need at least several weeks to evaluate the data. There also may be additional information needed as a result in order to be ready to present our analysis to the Board regarding the need and the impact of this Application.

We appreciate your consideration.

Very truly yours,

Anne Cramer
