6. Prior Approval of Workers. The state shall have the right to approve any personnel the Contractor proposes to assign to work requested by the State prior to the commencement of such work. If the proposed personnel of the Contractor are not acceptable to the State, the State may choose to withdraw the assignment of such work from the Contractor, and Contractor will assign personnel acceptable to the State. The State's right to request replacement of Contractor personnel hereunder relates solely to the removal of individuals from work on this contract with the State and does not create any employment or principal-

agent relationship. Nothing in this contract authorizes the State to direct the Contractor's termination of, or other adverse action related to, the employment of any individual.

7. Intellectual Property/Work Product Ownership. All data, technical information, materials first gathered, originated, developed, prepared, or obtained as a condition of this agreement and used in the performance of this agreement—including, but not limited to all reports, surveys, plans, charts, literature, brochures, mailings, recordings (video or audio), pictures, drawings, analyses, graphic representations, software computer programs and accompanying documentation and printouts, notes and memoranda, written procedures and documents, which are prepared for or obtained specifically for this agreement, or are a result of the services required under this grant—shall be considered “work for hire” and remain the property of the State of Vermont, regardless of the state of completion, unless otherwise specified in this agreement. Such items shall be delivered to the State of Vermont upon 30 days' notice by the State. With respect to software computer programs and/or source codes first developed for the State, all the work shall be considered “work for hire,” i.e., the State, not the Contractor, shall have full and complete ownership of all software computer programs, documentation and/or source codes developed.

The Contractor shall not sell or copyright a work product or item produced under this agreement without explicit permission from the State. If the Contractor is operating a system or application on behalf of the State of Vermont, then the Contractor shall not make information entered into the system or application available for uses by any other party than the State of Vermont, without prior authorization by the State. Nothing herein shall entitle the State to pre-existing Contractor's materials.

8. Professional Liability Insurance. Before commencing work on this contract and throughout the term of this contract, Contractor shall procure and maintain professional liability insurance for any and all services performed under this contract, with a minimum coverage of \$1,000,000 per claim.
